# SOLONS ASSAIL DAWES' SPEECH

## Indicate Move To Oust Beach Justice

### RENT FUNDS ARE SOUGHT BY COUNTY OFFICIALS

Supervisors Issue Order to District Attorney Regarding Charges

### SALARY WARRANT IS HELD UP BY OFFICE

Justice Warner Claims Move Is Part of H. B. Political Campaign

PROBABILITY of action by the county to recover \$200 paid to Justice C. W. Warner, of Huntington Beach, as a rent allowance, and also to force the office to vacate his office, loomed today, the board of supervisors having issued instructions to District Attorney A. P. Nelson to proceed in the matter.

The announcement of this action lifted the lid from a situation that is said to have been simmering beneath the surface at Huntington Beach for some time. Justice Warner was recently ousted from his post as city recorder by the Huntington Beach council, but retained his township office. His office has been located in the Huntington Beach city hall for the last 20 months and it is claimed by his accusers that he has each month filed claim for and received from the county an allowance of \$10 for rent, although not required to pay rent for his quarters in the city hall.

County Auditor Acts  
Coincident with the announcement of the action by the supervisors came a statement today from County Auditor W. C. Jerome to the effect that he has already acted to recover the \$200 by holding up last month's salary to Justice Warner, and preparing to hold up the next warrant as well.

"It will be Justice Warner's move, not the county's, if any court action is required in connection with the \$200," said Jerome.

The district attorney, having just completed the trial of an important criminal case, today began a reconsideration of the situation as presented to him by the supervisors. He was not yet ready to announce his course, he said.

Prepares to Fight  
Justice Warner is understood to be preparing to fight back in the drive against him, which he intimates has its origin in local politics.

He admits collecting the monthly rental allowance, it is said, but contends that the county allows that sum to all justices of the peace, and that he had no assurance that he would not eventually have to pay back rent for his quarters in the city hall.

Corn Doctor With "Wonder Cure" Is On Trial In L. A.

LOS ANGELES, March 5.—A jury was to decide today whether Dr. King, Long Beach, who is known as "the wonder cure" doctor, is to go to jail or continue to relieve sufferers of the temperamental growth.

King was held in Judge Hahn's court here charged with practicing without a license.

The State Medical Board contends King was not selling his medicine by the bottle but administering medical treatment by applying it.

Several witnesses testified that King's concoction was a "wonder worker."

CITY SUPREMACY WILL BE DECIDED BY DOMINO GAME PLAYED BY AID OF RADIO

SAN FRANCISCO, March 5.—This relative civic supremacy of San Francisco and Los Angeles is to be settled tonight and the world is invited to listen in.

Two factions have accepted challenges to a battle to the last dot with dominoes by radio. San Francisco will broadcast over KGO, 361 meters, Los Angeles over KFI, 467 meters, starting at 7:30 p. m.

With the encouragement of the San Francisco Commercial

C. W. WARNER  
Justice Warner of Huntington Beach is charged with filing claims for office rent while using free quarters in the city hall.

### NEW CABINET PREPARED TO TAKE UP WORK

WASHINGTON, March 5.—With the exception of an attorney general, President Coolidge's new cabinet was completed and ready for business today.

Frank B. Kellogg of Minnesota was formally sworn in as secretary of agriculture, succeeding Howard M. Gore, now governor of West Virginia. R. M. Reiser, chief clerk of the department of agriculture, read the oath.

The nomination of Charles B. Warren, Michigan, to be attorney general succeeding Harlan F. Stone, who was elevated to the supreme court, was sent again by the President today to the senate, which he expected to confirm it in the special session beginning today. Threats of opposition blocked its consideration in the old senate.

The cabinet, perhaps with Warren in his intended place, will hold its first meeting Friday at the White House. The lineup is considered temporary by Capitol observers, because of persistent rumors that Kellogg and Secretary of War Weeks will retire before the year is ended.

Say Kellogg May Resign  
Kellogg is not in the best of health and it is generally believed will retire this summer. President Coolidge is expected to promote Warren from the attorney general's place if he is confirmed to the state portfolio.

Weeks is said to be ready to retire after a long political career and Colonel Theodore Roosevelt may be his successor.

Official Leaves To Nab Borglum

ATLANTA Ga., March 5.—Armed with requisition papers, a Georgia official will leave for Greensboro, N. C., tomorrow in an attempt to bring back Gutzon Borglum, fugitive sculptor, indicted for destroying models of the Stone Mountain memorial.

The old First National bank building has been for several years a landmark in Santa Ana. It was sold to Helbush several months ago by the First National bank on their entering new quarters across the street and work has been held up on the remodeling because of a technicality in the transferring of the deed.

The completion of the building will not be made before possibly the second week in May, it was said, because of trouble being experienced in receiving building materials needed.

Pass Health Bill In N. M. Assembly

SANTA FE, N. M., March 5.—A bill requiring physical examination of both men and women before marriage was passed yesterday by the New Mexico house of representatives. The measure now goes to the senate where sentiment is said to favor it.

## EXTORTION PROBE NEAR END

### JURY FAILS TO AGREE ON VERDICT IN WHEATLEY CASE; EVEN DIVISION REPORTED

FOLLOWING DISAGREEMENT by the jury that heard his trial, a second trial for Charles B. Wheatley, charged with forging an endorsement to a \$5322 county warrant, was today set for April 20 in Superior Judge Z. B. West's court.

Preliminary examination of Wheatley, in connection with a grand larceny charge, was postponed today by Justice K. E. Morrison to April 1, with the probability that it would be again postponed at that time until after the second forgery trial. The grand larceny hearing had been scheduled for 10 a. m. today. It concerns the alleged theft of \$10,000 from the county treasurer's office last July.

The jury in the forgery case was evenly and hopelessly divided, it was rumored, when discharged at 9:30 o'clock last night, having deliberated for seven hours and ten minutes, with an intermission for dinner.

"Grape vine" news channels hinted that the three women jurors, Helen Ash, Isobel Dunlap and Mae J. Thomas, with J. E. Kellogg, Charles Hallett and Charles H. Blankenbeker, stood for acquittal with A. J. Smiley, J. M. Miller, F. M. Fontes, Frank K. Day, Louis D. Gunther and Oscar Guilbert standing out for conviction. The alignment, it was rumored, remained very nearly from the first ballot.

Eleven of the jury found themselves drawn in the jury box again today in the same court room, where another criminal case was being tried. The twelfth, Blankenbeker, had been excused from court. Examination by attorneys, however, weeded the 11 down to 8, with four who had not served on the Wheatley jury.

Farm Relief Measure and Aid For Soldiers Bill Both Are Favored

SACRAMENTO, Calif., March 5.—The assembly extortion investigating committee today continued in executive session for the purpose of sifting down the testimony taken during its hearings this week and preparing a report on its findings.

Chairman Sidney Graves said he believed the committee might be able to finish its report some time today. He would give no intimation as to what the findings might be.

Senator Edgar Hurley, Assemblyman Edward Smith, Police Chief James T. Drew of Oakland and Arthur Ohnibus, chief clerk of the assembly, were the only witnesses to take the stand during yesterday's hearings.

Smith and Hurley both vigorously denied being implicated in any plot to exact money from Chinese herbalists through Smith's bill proposing regulation of herb medicines.

Farm Relief Bill Favored  
The bill providing an additional appropriation of \$8,851,400 for the relief of farmers throughout the state in reclamation and drainage work, was reported back to the senate today with the favorable recommendation of the senate committee on drainage swamp and overflow lands.

The bill, introduced by Senator Frank Boggs of Stockton, calls for an approval of the modified report of the California debris commission. This report asks an additional appropriation of \$12,109,100 from the federal government to aid in the work.

The veterans' bond issue bill, calling for a \$20,000,000 bond issue to complete the rehabilitation work provided for under the veterans' act, was returned to the assembly today bearing the approval of the soldiers' and sailors' committee.

The bill originally called for a \$10,000,000 bond issue, but was amended by the committee on the advice of the state executive committee of the American legion, which claimed the increase would allow an additional bond issue and would allow the welfare board to clean up the list of men desiring state loans.

Aid Veterans to Buy Homes  
The money is intended to aid veterans of the world war in the purchase of homes and farms. The proposal to raise the allowance for the purchase of homes from \$5000 to \$8000 was postponed until a report can be made by a special sub-committee which will be appointed today to investigate the advisability of the increase.

Ratification of the Colorado river pact without the signature of Arizona is asked in a resolution introduced in the assembly today by Assemblyman A. C. Finney, Brown, Isac Jones, Ontario, and Ray C. Murray of Riverside.

The resolution provides further that ratification of the pact shall not be obligatory on California until the federal government insures and authorizes the construction of a dam on the Colorado river near Boulder canyon.

A few moments before the resolution was introduced, Governor Richardson sent a message to the legislature bearing on the subject and advising the lawmakers to give it earnest and prompt consideration.

Colorado, Nevada, New Mexico, Utah, Wyoming and California have all ratified the pact, the purpose of which was to provide for an equitable division of the waters of the river.

HE GOT ENOUGH.  
LONDON, March 5.—In five minutes here a man was sentenced to one month for attacking the police, another month for neglecting his wife and family, 28 days for default in paying alimony and fined one pound for each of five summonses for motoring offenses.

SPEED DETECTIVES.  
TOKIO, March 5.—To prevent the speeding and racing of the city auto buses with other motor cars, which caused many accidents lately, the police have decided to place a plainclothes detective on each bus.

### MAY OFFER REPORT IN CASE TODAY

Farm Relief Measure and Aid For Soldiers Bill Both Are Favored

SACRAMENTO, Calif., March 5.—The assembly extortion investigating committee today continued in executive session for the purpose of sifting down the testimony taken during its hearings this week and preparing a report on its findings.

Chairman Sidney Graves said he believed the committee might be able to finish its report some time today. He would give no intimation as to what the findings might be.

Senator Edgar Hurley, Assemblyman Edward Smith, Police Chief James T. Drew of Oakland and Arthur Ohnibus, chief clerk of the assembly, were the only witnesses to take the stand during yesterday's hearings.

Smith and Hurley both vigorously denied being implicated in any plot to exact money from Chinese herbalists through Smith's bill proposing regulation of herb medicines.

Farm Relief Bill Favored

Colorado, Nevada, New Mexico, Utah, Wyoming and California have all ratified the pact, the purpose of which was to provide for an equitable division of the waters of the river.

HE GOT ENOUGH.  
LONDON, March 5.—In five minutes here a man was sentenced to one month for attacking the police, another month for neglecting his wife and family, 28 days for default in paying alimony and fined one pound for each of five summonses for motoring offenses.

SPEED DETECTIVES.  
TOKIO, March 5.—To prevent the speeding and racing of the city auto buses with other motor cars, which caused many accidents lately, the police have decided to place a plainclothes detective on each bus.

TO SAVE HUBBY'S DRESS.  
TOKIO, March 5.—To save the court dress of her husband, Tei Nagashima plunged into their burning home. It will require several weeks for her to recover from her burns.

ARREST OF MOVIE STARS ORDERED FOR ALLEGED FAILURE TO PAY HOTEL

DES MOINES, Iowa., March 5.—Seven of the Hollywood screen stars who appeared as the featured attraction at the Za-Ga-Zig Shrine last Tuesday night faced temporary embarrassment at 2 a. m. today, when Omaha police authorities issued orders for their arrest for alleged failure to pay a bill of \$207 at the Hotel Fontanelle.

Eryan, Washburn saved the situation by promising the hotel over long-distance telephone that he personally would guarantee payment of the bill.

Local police received a telegram asking for the arrest of Anna May Wong, Enid Gregory, Cullen Landis, Jack Daugherty, H. L. Tighe, Harry Anderson and D. S. Fridner.

It was learned that the hotel company dismissed the action in view of Washburn's promise to settle the bill. The barnstorming troupe left for Chicago.

### Name Censor To Rule On Co-eds' Dress

BERKELEY, March 5.—Suggestions made by Berkeley matrons that the attire of co-eds on the University of California campus has been entirely too "a la mode" has caused fair students to checkmate any possible official censorship.

The senior class has appointed Miss Anna Zimmerman a committee of one to see that girls don't wear "too short, or roll 'em too low."

"Not that the styles need correction, you understand, but Paris has such funny ideas," said Miss Zimmerman.

ITALIANS AND BEDOUINS IN DESERT CLASH

LONDON, March 5.—Italian troops crossed the western border of Egypt, attacked a Bedouin caravan, killing 15 and took the remainder prisoners, according to a dispatch from the Daily Chronicle's Cairo correspondent.

All the camels in the caravan were either killed or carried off. The Egyptians, in the meantime, were busy strengthening their garrisons at Sollum.

Eighty-five Italian soldiers were killed in recent raids around Benghazi by Senussi tribesmen, according to Egyptian sources.

MAIL THEFT CASE DRAWING TO CLOSE

LOS ANGELES, March 5.—The case of Jack Ellerick, Joe Bertsche and Frank Wilson on trial in federal court here for alleged complicity in the million dollar Los Angeles mail robberies was drawing to a close today.

Final arguments were presented this afternoon and the case will reach the jury tonight or tomorrow.

Defense attorneys bitterly denounced the government's star witness, Herbert Wilson, ex-preacher and San Quentin "lifer," in their concluding statements. Wilson, they claimed, had been promised immunity to testify against his former pals, including his brother.

Wilson testified he "stage-managed" the big mail robbery and the defendants aided him in carrying out his plans.

SIEGE IS LIFTED, CAPTURE BROTHERS

BELLEVILLE, Ohio, March 5.—The siege of the Rushsylvania farmhouse where Harry and Ray Wren held out against the sheriff's posse three days came to a sudden end today.

Slipping upon the alleged lunatics as they ventured out into a pasture back of the barn, Sheriff Woolley of Logan county and ten deputies overpowered the Wren brothers and took them into custody.

Woolley said they put up a stiff battle but were unarmed and gave up when they saw they were outnumbered.

TO SAVE HUBBY'S DRESS.  
TOKIO, March 5.—To save the court dress of her husband, Tei Nagashima plunged into their burning home. It will require several weeks for her to recover from her burns.

ARREST OF MOVIE STARS ORDERED FOR ALLEGED FAILURE TO PAY HOTEL

DES MOINES, Iowa., March 5.—Seven of the Hollywood screen stars who appeared as the featured attraction at the Za-Ga-Zig Shrine last Tuesday night faced temporary embarrassment at 2 a. m. today, when Omaha police authorities issued orders for their arrest for alleged failure to pay a bill of \$207 at the Hotel Fontanelle.

Eryan, Washburn saved the situation by promising the hotel over long-distance telephone that he personally would guarantee payment of the bill.

Local police received a telegram asking for the arrest of Anna May Wong, Enid Gregory, Cullen Landis, Jack Daugherty, H. L. Tighe, Harry Anderson and D. S. Fridner.

It was learned that the hotel company dismissed the action in view of Washburn's promise to settle the bill. The barnstorming troupe left for Chicago.

## CRITICISM IS VEILED IN POINTS OF ORDER

Vice-President's Demand For Revision of Rules Evokes Resentment

MEMBERS FLAY DAWES ON PRIVILEGE POINTS

President's Message Is Due to Reach Senate on New Business Program

WASHINGTON, D. C., March 5.—Resentment over the inaugural speech of Vice President Charles G. Dawes, demanding of the senate that it revise its historic rules—broke on the floor when the upper house convened in special session today.

With Dawes personally in the chair, Senators Reed, Missouri, Democrat, and Ashurst, Arizona, Democrat, found opportunity to "raze" the vice-president on points of personal privilege, although they were not able to make speeches of condemnation because there was no official business before the session.

Reed held up the formal reading of the journal of yesterday's proceedings, containing the inaugural address by Dawes—so he could "inspect it and see all it contained."

Ashurst called attention to criticism in the newspapers and said: "The criticism I made of the new vice president was because of his unseemly and unkindly interruption while the other oaths of new senators were being administered."

Ashurst referred to Dawes' action in calling all new senators together for swearing in, instead of in the customary blocks of four. Believing that Dawes' haste to swear in all new senators at once and then rush the senate out to the inaugural platform had resulted in nullifying the authenticity of the oaths, the senate adopted a unanimous censure agreement to validate the irregular ceremony.

Senator Underwood, Alabama, Democrat, long time opponent of the present rules of the Senate, which were assailed by Dawes in his inaugural speech, then introduced a resolution to change the rules to limit debate strictly by enforcement of a "cloture" rule.

COOLIDGE MESSAGE TO OUTLINE PROGRAM  
WASHINGTON, March 5.—President Coolidge will send a message to the Senate today outlining subjects he wishes considered in the special session.

Congressional leaders announced that adjournment would be taken at noon until 2 p. m. to permit the president to write his message. Until instructions are received from the White House, Senate leaders are unable to state what business will be taken up first.

Persistent rumors have been circulated among senators that the President might urge consideration of the Harding-Hughes world court plan, which has been held up nearly two years.

PERSHING ORDERED TO CONTINUE REST

HAVANA, March 5.—Suffering from dysentery, caused by fatigue after several weeks' travel, General John J. Pershing has been ordered to remain in bed until Sunday.

Pershing complained of being ill soon after his arrival Tuesday from Santiago. His engagements for the week have been cancelled.

Why Not Own One?

Every automobile you see on the street is a "USED CAR." Then when buying an automobile, why not get full motor car satisfaction at less cost? When you buy a USED CAR you get thousands of unused miles and you save the first large depreciation loss that every automobile has to stand.

A good USED CAR will go anywhere, do anything, perform any service that any automobile can. You get full joy in motor car ownership the minute you buy a USED CAR.

Before you definitely decide to put off buying a car; turn to the Classified section, look under "autos for sale" classification. You will find cars of quality offered at prices from \$100 and up, on terms within everyone's reach.

Turn now to classification 7.

# BOOST LETTERS ARE EN ROUTE TO NAIL WAILS

A large number of letters, telling the story of Santa Ana and its wonderful opportunities, are now en route to respective destinations in the east, the middle west and the northwest, as a result of the local letter-writing campaign, which was brought to a close last night. As the clock struck 12, a special detail of volunteer workers brought in the last collection of letters from the orange colored barrels placed about the city.

Satisfaction with results obtained was voiced by R. L. Bisby, president of the Santa Ana Advertising club, who added that the undertaking was a success because the citizens of the community, appreciating the underlying motive and realizing the purpose of the proposition, entered into it with the right spirit.

Thanks Merchants.

In this connection, he added that the Advertising club extends its sincere thanks to those who gave their co-operation to the undertaking, particularly the merchants who were liberal with window space.

The arrangements of the campaign were in charge of D. G. Coover, chairman, W. H. Hanley, Wilbur Barr, Bruce Switzer, Don Andrews, N. E. Mayhill, G. A. Moore and L. R. Crawford. Co-operating with this committee were Mayor John W. Tubb, J. P. Baumgartner, T. L. Stephenson, J. A. Cranston and A. L. Oliver.

Window displays were shown at the following stores: J. C. Horton Furniture company, Rankin's department store, Hill and Son, W. D. Baker, Western Auto Supply company, Sam Stein's, Beisel's leather store, W. A. Huff, Hill and Cardon, Nash Outfitting company, Vandermaast and Son, Boquet Shop, Chandler's Furniture company, and Henry's Cycle store.

Horton Wins Trophy.

The trophy cup, donated by R. L. Bisby, president of the Santa Ana Advertising club, for the best window display, was awarded to the J. C. Horton Furniture company by the committee of judges, composed of J. P. Baumgartner, O. A. Haley and Victor T. Hawk.

The display shows a map of a portion of the eastern states, separated from California by a barrier of mountains with the blue Pacific bounding California on the west. The map depicts Orange county and Santa Ana in particular, showing Orange county harbor, Newport Beach and Balboa.

Statistics telling the story of county soil production are emblazoned across the map. The Pacific carries the slogan "Come on in, the water's fine" together with the invitation "All-year bathing."

Curving upward from the southwest corner of Arizona is a miniature train, presumably following the route of the Santa Fe railroad, carrying the sign, "Santa Ana Special Mail Train, 10,000 letters."

Above the eastern states is a snowfall of letters from "the Garden Spot of God's Country."

During the letter week the window was illuminated with blue lights, with the exception of Orange county which was shown up with an orange spot light.

Much credit for having captured the banner prize goes to Ernest M. Fox and Russell Hardcastle, interior decorators of the Arts and Decorative department of the J. C. Horton Furniture company, it was said.

Make Emotional Appeal.

Running a close second to the prize winner and receiving "honorable mention" was the artistic and striking display at Rankin's department store.

In talking with Robert W. McKnight, display manager of the establishment, in regard to the display, he said that the keynote of the idea was emotional appeal.

So McKnight used a bit of life in putting over the idea of "Write a Letter Back East." One could see an animated mother sitting at the desk thinking: "Just what shall I write next?—I have sent the little girl out to mail a number of letters already written to eastern friends, but I still want to write some more."

Smile Typifies Spirit.

The letter-writing mother did not appear to be the least bit worried about the results for she had a smile on her face, her little daughter was sunshine personified—reflecting the spirit of Southern California and Santa Ana.

Other displays deserving special mention were those of Hill and Son, W. A. Huff and company, Sam Stein's, Neal Beisel, Chandler Furniture company, Vandermaast and Son, Henry's Cycle shop, Chandler Music store, and Western Auto Supply company.

No Guess  
Work in  
Cincinnati

They tested motorists' eyesight in Cincinnati, Ohio.

53 per cent had good vision.

Of the rest, 27 per cent were termed DANGEROUS DRIVERS!

Practically the same condition SURELY exists in Santa Ana.

## HERE IS WINNING WINDOW DISPLAY IN CONTEST TO AID IN "NAIL WAIL" DRIVE

Above, the Horton Furniture company's prize winning display in the contest for the best design depicting the "Nail the Eastern Wall With Santa Ana Mail" contest for which R. L. Bisby, president of the Santa Ana Advertising club offered a trophy cup. Below, left, J. C. Horton receiving the cup from R. L. Bisby on the right. In the center is G. G. Coover, who managed the campaign on behalf of the Advertising club.

## BISBY MAKES STATEMENT

March 5, 1925.

Mr. J. P. Baumgartner,  
Register Publishing Company,  
Santa Ana, California.

Dear Sir:—As a member of the Advertising Club of Santa Ana, I want to express to you our appreciation for the hearty co-operation and support that you have given our campaign in the matter of the eastern mail.

The whole thought back of this campaign was to send a volume of letters, flooding the entire eastern country and to have these letters written in that friendly vein that carries conviction with it.

Now that the campaign is over and the letters have gone out, it only remains for us to wait and see the results. This thought of "barrels of letters" has been with the writer for many years and was used by him while in Long Beach.

If you should publish this letter I want, through it, to convey to the different clubs and civic officials, as well as to the public at large, as a whole, the deep appreciation of the Advertising Club for their hearty co-operation.

No individual, of himself, can accomplish anything of any moment. It takes the united effort of many individuals to build a community, and we who live in Santa Ana are deeply grateful for the fact that our community is united and is not divided on any important question.

Once again saying to you that we do appreciate the most excellent work that you and your staff have accomplished in our campaign, I am

Sincerely yours,  
R. L. BISBY.

## EXTORTION PROBE IS NEARING CLOSE

(Continued from Page 1.)

the Colorado river, to afford protection from disastrous floods and to secure storage for use in dry seasons.

In the governor's message it was stated that Colorado and Wyoming have already adopted resolutions similar to the one introduced here today and that Nevada, New Mexi-

co and Utah are awaiting action by California.

"California is vitally interested in the purpose of this compact," the governor declared. "During the past season, Imperial valley has suffered for want of sufficient water, while only a few years ago this valley and the Palo Verde valley were injured by floods.

"Not only the needs of the Imperial valley demand action but the future development of Imperial, Riverside, San Bernardino and Los Angeles counties depend upon the conservation and storage of waters of this great river. The city of Los Angeles is now looking to the Colorado for future water supply."

## MAYOR, VENICE OFFICERS DEFY OUSTER ORDER

VENICE, March 5.—Mayor C. Gordon Parkhurst refused to leave office today although he voted with other members of the board of trustees for his own resignation.

Chief of Police C. C. McCausland and other officials included in the board's demand for wholesale ouster of the city administration, also went about their duties as usual today, refusing to quit their jobs.

Parkhurst declared today that he and other officials under fire had no intention of resigning and would stick to their jobs.

"The board's action in demanding the resignations was merely a vote of protest," he declared.

"The entire affair exists merely because two members of the board took seriously the complaint of some citizens that we were not enforcing the gambling and liquor laws.

"When two members of the board accused Chief McCausland of graft and tried to get his job without even giving him a hearing we passed a compromise resolution asking that all city officials place their resignations in its hands to enable it to make a full investigation of the records and of departmental heads.

"No resignations have been accepted and none will be without a full hearing."

Resignations demanded by the board include all employees receiving more than \$4.50 per day. If accepted it would leave Venice with only street-sweepers on the city payroll.

Stanley Romer, 115 Bush street, reported to police yesterday that an automobile belonging to him was stolen from his garage yesterday.

Lady Astor, member of the British parliament, has been sent a special invitation to attend the forthcoming convention of the National League of Women Voters of the United States, which is to be held in her old home city of Richmond, Va.

The principal speakers will be Dr. J. T. Barrett, Prof. H. J. Quayle and Prof. Harry Smith, specialists at the station.

## The WELL-DRESSED MAN

By BEAUNASH

Correct Clothes To Meet The Obligation Of Every Occasion.

## FIRESIDE COMPANIONS

Somebody has observed that a large American city is a place where nobody goes to bed the same day he gets up. What this "wise cracker" doubtless named Graham, means is that the juggernaut of jazz has ridden down the old-fashioned home life and made us join the Sleep Dodgers' club. It was never quite as bad as all that, and even if it had been, the voice of the radio has soothed millions of Americans back to hearth and easy-chair. There, they exclaim, in the words of the bearded bard in the buckrum binding, "Why, then, the world's mine oyster," and proceed to open it by tuning in on Aberdeen, which is situated in South Dakota or Scotland, according to whether you are getting it or telling it or telling about it.

"Slipped ease" in the fine old significance of the term will, probably, never be known to the present generation as it was to the past. There are too many distractions and we are too restless a race to twiddle thumbs in front of the fireplace. Nevertheless, even the confirmed rouler must spend some hours at home, and smart, comfortable slippers are a part of every correct and complete wardrobe.

Latterly, alligator skin has come into vogue as very suitable for house slippers. A pair is pictured in the accompanying sketch. The overlay (top) and foxing (above heel) are of patent leather, lending a richly contrasting touch. The toe is broad and squarish or spade-shaped. This represents the sensible type of modern slipper. It is devoid of those "fancy" effects to be found in slippers of the so-called Romeo, Fanny and Cavalier style, which, frankly, took too womanish to be acceptable to most men.

You should own two pairs of slippers—one for general house wear and the other for the bedroom and at least two pairs of bath slippers. These, being made of Terry cloth or Turkish towel, are soft and absorbent, but they soon become pulpy and shapeless. House slippers, to be sure, last much longer. Bedroom slippers may be of tan or gray with padded soles. Pullman slippers, same material having a snap button on the instep, are the most common foot troubles are corrected or alleviated by the daily habit of wearing slippers. They rest the foot by relieving the pressure from shoes which are too tight or by neutralizing the effect of perspiration.

## The Cheerful Cherub

I sit and think midst  
toil and strife  
My abstract, sweeping  
thoughts on life.  
My mind is much too  
vague and grand  
To cope with problems  
near at hand.

## News Briefs

"Child Psychology" was the subject discussed by Dr. Mary Neff, Los Angeles, of the university extension department, at the monthly session of the Conference of Welfare Workers of Orange county at Kerner's cafe last night. The meeting was well attended, 37 members being in attendance. Among the visitors present was Dr. Louise Hannon, Sacramento, of the bureau of child training and correction. W. M. Cory, president, presided.

In response to the interest aroused and maintained by the art exhibit of copies of famous pictures, sponsored by the Frances Willard Junior High school, the exhibit will be open again tonight, according to announcement made today by Miss Vanche Plumb of the Washington school. The pictures are being shown at the Washington building and have drawn hundreds of interested onlookers since the exhibit was opened Tuesday morning. It is open to the general public and a cordial invitation is extended all art lovers to take advantage of the added interval of

display tonight and see some of the famous works of art.

Judge Edgar E. Hendee, a prominent Santa Ana attorney, is registered at Santa Ana hotel. Other arrivals include Attorney at Law, L. A. Kirby of San Diego; Mr. and Mrs. R. C. Elliott, Grand Junction, Colo.; Mr. and Mrs. George J. Essex, Chicago; J. Goldberger, San Diego; Miss Della Martin, San Diego; Mr. and Mrs. R. H. Hutchins, Huntington Beach.

George Birchard, a retired building contractor of Lincoln, Neb., accompanied by his niece, is registered at Hotel Santa Ana.

Arrivals at St. Ann's Inn include D. H. Coolidge, Santa Barbara; J. H. Davis, Boston; Mr. and Mrs. H. H. Davis, Montecito, Santa Barbara; B. M. Waters, New York; Louise De Grosse, Denver.

The singers from the Piney Woods School of Braxton, Miss., will have charge of the program of the Men's Community Bible class in Walker's theater Sunday morning, it was announced today by W. B. Martin, president. Lawrence C. Jones, principal, who is touring the country with the singers, will give the principal speech at the gathering. The meeting is for men only and will start promptly at 9:30 o'clock. Admission will be free. The class here is now the second largest in California, according to information received today by President Martin. Long Beach is first.

Julius V. Hilton of the advertising staff of The Register, will lead the discussion on advertising copy at the luncheon meeting of the Santa Ana Advertising club, St. Ann's Inn, Friday noon. Reports on the letter campaign, sponsored by the club, will be given at the gathering tomorrow. A number of important business matters are scheduled to come before the body for consideration.

Firmer residents of Pennsylvania in Orange county are invited to attend the big annual picnic to be held in Sycamore Grove park, Los Angeles, next Saturday. John Steven McGroarty, writer and playwright, will be the principal speaker, it was announced.

## ENTER LEASE FOR CHAMBER OFFICE ANNEX

A lease for a portion of the St. Ann's Inn grounds, to be used as building site for a new chamber of commerce building, was entered into today between the St. Ann's Inn hotel company and the Santa Ana Chamber of Commerce, it was announced by Secretary A. L. Olinger of the chamber.

The lease covers a period of ten years at a nominal rental of \$1 a year. Building operations will begin as soon as bids have been received and acted upon by the building committee, of which J. C. Wallace is chairman.

At the directors' meeting held this morning, J. W. Estes jr., chairman of the membership committee, reported considerable progress, stating that the aims of the chamber are finding a ready echo among business men, property owners and others identified with the building up of the city.

Jess Elliott and William Iverson were elected delegates to the Southern California air meet to be held in Glendale, March 14.

April 3 has been set for the annual dinner meeting of the chamber of commerce, to be held at St. Ann's Inn, it was announced. A special program, including an address by a national speaker, is now being prepared for this event, Secretary Olinger concluded.

## Farm Bureau Notes

Various matters of interest to farmers of Orange county were taken up by the directors of the farm bureau at their all day monthly session in the hall of records building today. Appointment of committees was scheduled for this afternoon.

Among those who spoke were A. A. Brock, county horticultural commissioner, who talked on "The Function of the Horticultural Commissioner."

Plan Avocado Night  
Avocado night will be observed by the El Modena farm center at its regular meeting in the grammar school building Monday night, J. M. Brubaker, president, announced today.

C. V. Newman, E. C. Dutton and W. McPherson, well known avocado experts, will be the principal speakers.

Secures Windbreak Data  
Grant Merrill, assistant farm advisor, loaned to Orange county by the Berkeley office, has compiled data on 50 windbreaks in various parts of the county and expects to have information of 25 others soon, it was announced today. The windbreak report being compiled will include orchard and packing house data.

Merrill will make a personal survey after he finishes with the windbreak work.

Fluently to Return  
L. W. Fluently, farm management specialist with the college of agriculture, Davis, will be in Orange county next week. He will speak at Villa Park March 11 and at Tustin March 12. His subject will be "The Present Status of Agriculture."

Fluently was in the county several weeks ago. He is considered one of the best informed management specialists in the country.

display tonight and see some of the famous works of art.

Judge Edgar E. Hendee, a prominent Santa Ana attorney, is registered at Santa Ana hotel. Other arrivals include Attorney at Law, L. A. Kirby of San Diego; Mr. and Mrs. R. C. Elliott, Grand Junction, Colo.; Mr. and Mrs. George J. Essex, Chicago; J. Goldberger, San Diego; Miss Della Martin, San Diego; Mr. and Mrs. R. H. Hutchins, Huntington Beach.

George Birchard, a retired building contractor of Lincoln, Neb., accompanied by his niece, is registered at Hotel Santa Ana.

Arrivals at St. Ann's Inn include D. H. Coolidge, Santa Barbara; J. H. Davis, Boston; Mr. and Mrs. H. H. Davis, Montecito, Santa Barbara; B. M. Waters, New York; Louise De Grosse, Denver.

## RESCUER OF 98

Frank D'Amico from a seat on a pole high above the water watches the bathers at Ormond Beach, Fla. He is a champion life saver being credited with having saved the lives of 98.

## ARREST WOMAN MASQUERADING AS BOY TRAMP

Dressed in masculine attire, and with her hair cut short, a young woman, who said she was a boy, was arrested at 10 a. m. today on the outskirts of the city with a man, whom she later claimed to be her brother.

They both insisted they were boys, until the police threatened to call a physician. The girl, who gave her name as Louise Lamar, then broke down and confessed that she had "deserted" her sex.

The man gave his name as Edgar Lamar and was age 22.

Although the girl claimed she was only 16 years of age, Officer Earl Lentz, who made the arrest, and Chief Claud Rogers believe her to be older than the man in the case. Both are being held in the Orange county jail on a suspicion charge.

## Legal Notice

Be issued hereunder in the manner provided in the "Improvement Bond Act of 1915," the last installment of which bonds shall mature nine (9) years from the 2nd day of July, next succeeding ten (10) months from their date.

The expense of said work or improvement is by said Resolution of intention made chargeable upon a district, which said district is described in and by the said Resolution, and is shown by a plat or map thereof on file in the office of the City Engineer.

All of said work to be done according to the specifications posted and on file and heretofore adopted for doing said work.

Reference is hereby made to Resolution of Intention No. 1428 of said City, declaring its intention to order the said work to be done, and further particulars, which Resolution is on file in the office of the Clerk of the City of Santa Ana.

Bids for doing said work are invited as follows:

Item 1. The grading to a subgrade and the laying of a three and one-half (3 1/2) inch Asphaltic Concrete Base overlaid with a two (2) inch Asphaltic Concrete wearing surface complete with the furnishing of all necessary equipment, labor and material on an estimate of 48,185.44 square feet for the sum of \$18,454.00 (\$18,454.00) per square foot.

Item 2. The grading to a subgrade and the laying of a three and one-half (3 1/2) inch Asphaltic Concrete Base overlaid with a one and one-half (1 1/2) inch Asphaltic Concrete wearing surface complete with the furnishing of all necessary equipment, labor and material on an estimate of 236.58 square feet for the sum of \$9,062.40 (\$9,062.40) per square foot.

All proposals or bids shall be accompanied by a check payable to the City of Santa Ana, certified by a responsible bank, for an amount which shall not be less than ten per cent (10%) of the aggregate of the proposed work, and also payable, signed by the bidder and two sureties to shall justify before an officer competent to administer an oath in double the said amount.

Said sealed proposals or bids shall be delivered to the Clerk of the City of Santa Ana on or before 7:30 o'clock P. M. on the 16th day of March, 1925.

The Board of Directors of the City of Santa Ana reserves the right to reject any and all bids or proposals.

Dated this 3rd day of March, 1925.  
E. L. VEGLEY,  
Clerk of the City of Santa Ana.

## PETITION

We, the undersigned, each of whom is a registered voter within the boundaries of the herein proposed county water district and collectively equal in number to more than ten per cent of the number of votes cast in said district at the last general election for the office of Governor of the State of California, at the last general election held in the district territory of said county water district, do hereby petition the Board of Supervisors of the County of Orange, California, to establish the boundaries of a proposed county water district for the year 1925, to be known as the "County of Orange Water District," and to incorporate the same into the County of Orange, California, and to provide for the incorporation and organization and management of said county water district, and to provide for the acquisition of waterworks and for the acquisition of water by said county water district, and to provide for the sale of water by said county water district.

The proposed boundaries of said county water district are set forth and described as follows: Located in the County of Orange, State of California, and wholly outside of any incorporated city, and Beginning at a point in the North-easterly line of Lot 164, of the Irvine Subdivision, as shown on a map thereof recorded in Book 1, Page 88, Miscellaneous Record Maps, Records of Orange County, California, which said point is distant Northwesterly 640.00 feet, measured along said North-easterly line of said Lot 164, from the said point of beginning, said Lot 164, northerly corner of that certain tract of land of approximately 148.60 acres, described in deed recorded in Book 470, Page 196 of Deeds, Records of Orange County, California, thence Southwesterly along the northerly line of Lots 164 and 184 of said Irvine Subdivision, to the re-entrant angle point in Block 1, Tract No. 616, as shown on a map thereof, recorded in Book 17, Page 49, Miscellaneous Maps, records of Orange County, California.

## Rankin's Bargain Basement

Fourth and Sycamore, Santa Ana, Calif.

## OPENING FRIDAY MARCH 13TH!

Dedicated to the lowering of the price of lower-priced merchandise, Rankin's Bargain Basement will open Friday, March 13th, ready to perform a mercantile service unique in Santa Ana.

In order to keep overhead down, and give the kind of bargains we have planned, the general idea of the Bargain Basement will be similar to the self-help plan. There will be salespeople on duty, but their service will be practically limited to helping customers find merchandise and showing them how to make their purchases.

All merchandise will be placed on tables and in wall bins in plain view—there will be a price tag on every article—selection will thus be made easy, with everything at convenient reach.

Sales will be for CASH ONLY. No charges, no C. O. D.'s, no delivery, no elevator service, no telephone orders and no "will call" slips. Everything goes into the goods—no frills, just bargains!

The whole plan is to sell good merchandise cheap—a grade or two lower, perhaps, than that carried upstairs, but GOOD merchandise plainly marked—merchandise of the Rankin kind.

## New Hair In 90 Days!

or your money refunded—

[Van Ess Scalp Massage is preventing baldness and growing new hair; used by 800,000 men and 600,000 women]

Completely bald at 23—Mr. Overman grew 7 inches of thick hair in 7 months. Read this:

Van Ess Laboratories, Inc. Oakland, California, 11/15/24

Dear Sirs:  
July (1923), within three weeks, I lost ALL of my hair. It just dropped out. As I am a pharmacist and a drug store owner, I tried everything that I had for sale and that doctors knew of—but in November I was still bald on top—and only twenty-three years old! At last I tried Van Ess. Two bottles—a little white fuss—then—in January my wife left me for a 3 months' tour. When she returned in June I had seven inches of hair all over my head. I had used eight bottles. Van Ess daily, it's hair insurance.

Yours truthfully,  
(MR.) MARION O. OVERMAN  
4669 Telegraph Ave.

## We Guarantee

In writing to supplying hair in three weeks—new hair in 90 days—OR MONEY REFUNDED. You are the sole judge. Your own druggist gives the warrant. Hence you take no risk in making our 90-day test. At all drug or department stores. Van Ess Liquid Scalp Massage.

## RULES SPEECH BY DAWES HELD OF NO AVAIL

WASHINGTON, March 5.—The bomb Vice President Charles G. Dawes exploded in his inaugural address to the senate—demanding that the time worn rules be revised to expedite business—will be ineffective, leaders on both Republican and Democratic sides of the senate believed today.

Dictators of policy in the senate assert that to shear the senate of its ability to hold up legislation would rob that body of its entire legislative authority and relegate it to the status of a senate of foreign governments which in recent years have lost their power.

Say Suggestions Impossible  
Senator Charles E. Curtis, Republican floor leader and Senators Smoot, Utah; Moses, New Hampshire, and Jones of Washington, his aides in matters of senate regulations, are unanimous in the opinion that it would be impossible now to carry out Dawes' suggestion.

They pointed out that the idea has been advanced many times in recent years but has never been carried to a successful conclusion.

Hits at Filibustering  
The gist of Dawes' suggestion was the modification of the rule under which a senator is entitled to occupy the floor at any time and for as long a time as he may see fit. It is this rule that gives the power of filibuster to minorities.

For years both political parties have utilized the rules to kill off legislation which a majority of the Senate favored. The ship subsidy bill recommended by President Harding, the Dyer Anti-Lynching bill, the recent Crampton Prohibition Enforcement bill and others died by this route when they obviously had a majority for adoption.

Curtis believes that further modification of the rules will be undertaken in the new congress if it convenes in a special session in September, but the modification could not be along the lines that Dawes suggested.

## Wahlberg to Speak

Harold E. Wahlberg, farm advisor of Orange county, will speak at the Buena Park farm center Monday night on "Practical Hints on Citrus Fertilization."

## KNOWS BUSINESS

Miriam Hamilton, 16, of Chicago, powders her nose and dances beautifully, just like all other girls. But—she is a director of the Federal Life Insurance company, of which her father, Isaac Miller Hamilton, is president. Her father says a woman should understand business problems as well as a man.

## NIGHT COUGH QUICKLY RELIEVED

This is the substance of a letter received from H. W. Webb, Quincy, Ill. "I coughed a great deal, especially at night. Tried almost everything and have found nothing to equal FOLEY'S HONEY AND TAR COMPOUND. One dose relieved my cough and I rested well all night." One of the largest selling cough medicines in the world. Contains no opiates. Safe for children. Insist upon FOLEY'S. Refuse substitutes. Sold everywhere.—Adv.

## You And Your Friends

Please Phone or Mail Items

Mr. and Mrs. B. E. Edwards and son Alpha who have been stopping at 1629 West Fifth street, left yesterday on the Santa Fe California Limited for their home in Halstead, Kans.

Thomas Beem was an outgoing passenger over the Santa Fe yesterday, his destination being Bolivar, Mo. Mr. Beem will make a stopover at Los Animas, Colo.

Ernie Johnson, famous big league baseball player, left here over the Southern Pacific Tuesday, bound for training quarters in St. Petersburg, Fla.

G. W. Harris, connected with the Great Northern railroad, and Mrs. Harris, who have been spending the winter at the home of their son-in-law and daughter, Mr. and Mrs. F. H. Cloyes of 512 Orange avenue, are leaving over the Southern Pacific on Saturday for their home in New Rockford, N. D.

Miss Delva Eskew, who has just completed her course of training at the Santa Ana valley hospital, left yesterday via the Southern Pacific for Lone Pine, Calif.

Hillyard Tyrell of South Main street, who has been studying the baseball vacation period in Santa Ana with his mother, Mrs. Mollie Tyrell, left today over the Southern Pacific route for Tulsa, Okla.

A large delegation of members of Sycamore and Torosa Rebekah lodges attended the school of instruction at Fullerton yesterday conducted by the president of the Rebekah assembly, Mrs. Marie C. Steinman and secretary, Mrs. Ada Madison. Many of the visitors remained for the meeting of the Fullerton Rebekah lodge in the evening.

Friends of Mrs. Alex Brownridge of 1414 North Main street will be glad to hear that she has recovered from an attack of flu.

Mrs. Frank Stork of 721 Lacy street was brought home from Altadena on Tuesday and is seriously ill at her home. Mrs. Stork went to Altadena hoping to benefit her health.

Miss Ruby Pugh, who has been a guest at the home of her aunt and uncle, Mr. and Mrs. John Pugh of 729 East First street, since last June, left this morning over the Union Pacific for her home in Fort Benton, Mont. Miss Pugh made many friends during her stay in Santa Ana and will be greatly missed.

Charles W. Seeley, traveling passenger agent for the Erie railroad, with headquarters in San Francisco, paid a visit to the Union Pacific offices here today.

Mrs. C. E. Shelby, who has been in Santa Ana spending the winter with her daughter, Mrs. H. B. Crozier of 2337 North Main street, left yesterday via the Santa Fe route for her home in Dayton, Ohio, stopping en route for a months visit with her son at Aberdeen, S. D.

Mrs. E. E. Day, who has been visiting relatives at 230 South Sycamore street, left today for her home in Oakland. She traveled via Southern Pacific.

Mrs. M. Campbell of 1031 West Third street was a passenger this morning via the Southern Pacific for Charlton, Iowa.

Mrs. Marshall Northcross, daughter of Mrs. J. D. Thomas of North Broadway, who has just recovered from an attack of scarlet fever, went to Los Angeles to spend the day and tomorrow will return to her home in San Diego.

Mr. and Mrs. A. J. Crookshank of Austin left this morning by motor for San Francisco, to pay a visit to their children, who attend college in the north.

Mrs. W. H. Haddon, 114 Owens drive, is leaving on Sunday for a trip to San Francisco and to Reno, Nev., in both of which cities she will visit with friends.

J. M. Backs, county clerk, is in Sacramento attending the county clerk's convention in the capital city. He expects to return Saturday.

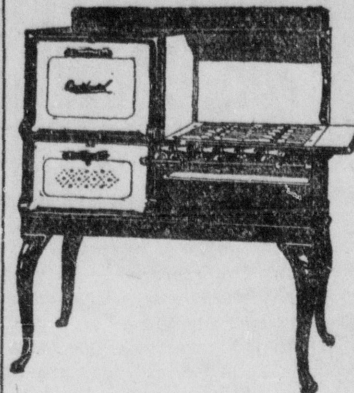

Mrs. Walter Dunlap, 2075 North Main street, is getting along very nicely from the injury received to her back Saturday morning, as the family was driving to San Luis Obispo. It will be necessary for her to remain in the plaster cast for some time, though.

## HE'S BABY HERE

Palm Tippy jumped overboard and rescued a two-year old playmate at St. Petersburg, Fla., but those who award Carnegie Hero medals said he was too young to know that he faced danger for himself. He is only three years old. He may be made the youngest Boy Scout.

Balloon dance, at Costa Mesa Club House, Saturday. Fine prize. Good floor. Chapman's Orchestra. Refreshments. Come early and stay late.

# Occidental

## GAS RANGES

### Made Especially for California Homes

**\$39.50**

is the price of a dandy little range with 14-inch upright oven and broiler. This range fits into a space only 36 inches wide.

First of all, Occidental Ranges are built to burn California Gas. Their burners get all the heat.

The cast iron oven bottom holds this heat, saves fuel and makes baking an easy task.

The ovens won't rust, Wilder rust proof linings—solid cast oven fronts—concealed hinges—and Robertshaw oven controls at small additional cost.

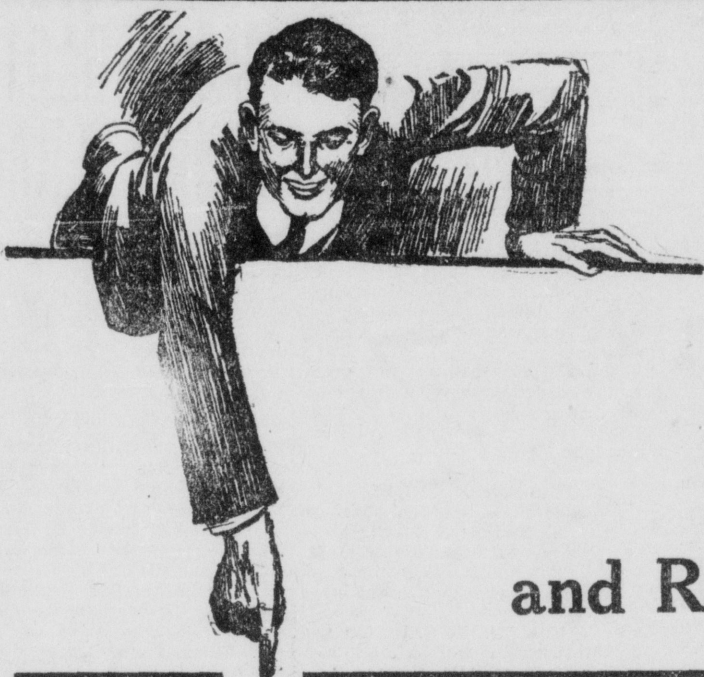

Come, see what better values they are.

**Kills Catarrh Germ**  
In Three Minutes  
Chronic catarrh, no matter how bad,  
and cases of bronchial asthma now  
yield instantly to the amazing discov-  
ery of a French scientist. This drug-  
less method called Laver kills the  
germ in three minutes, yet is pos-  
itively harmless to the most delicate  
tissues. Your head and lungs are  
cleared like magic. Sufferers are re-  
lieved in a single night.  
To prove it and to introduce Laver  
to a million sufferers in one month, I  
offer to send a treatment free and  
for it. No obligation. No cost. If it  
cures you, you can repay the favor  
by telling your friends—if not, the  
loss is mine. No matter what you  
have tried, just send me your name  
and address for this generous free  
treatment and prove that you can be  
rid of catarrh.

**Heathman Rallies,**  
Is Much Improved  
The condition of Col. W. F.  
Heathman, city recorder, who was  
seriously ill at his home at 320  
West Second street, was con-  
sidered improved by physicians at-  
tending him today.  
Col. Heathman suffered a stroke,  
caused by the contracting of mus-  
cles about the heart on Tuesday  
and he has been confined to his  
bed since that time. His condition  
was considered critical yesterday  
and last night, but he rallied early  
today after passing a peaceful  
night.

Phone Nine-O.

**Trio of Little Girls**  
Form Pretty Aid  
To Hostess  
Coming first in a series of smart  
social affairs planned for early  
March by different enterprising  
hostesses, the bridge tea with  
which Mrs. Loring Dale entertained  
yesterday was a most spring-like af-  
fair for which the big banquet room  
at Ebell club offered a pleasant  
setting.

The artistic peacock draperies  
of the room formed an attractive back-  
ground for quantities of spring  
flowers in brilliant colors and for  
St. Patrick's motifs which suggest-  
ed that approaching anniversary.  
This motif was apparent also in  
the tea menu which the series of  
bridges games culminated.

Mrs. Dale, one of the popular  
young matrons of the city and the  
mother of a dainty four-year-old  
daughter, added to the effective-  
ness of her entertaining by hav-  
ing the small daughter, Amy Jane,  
together with Lorraine, little Miss  
Five-Year-Old in the Hubert Dale  
home and Betty Jane Timmons,  
small daughter of the Howard Tim-  
monses, aid her in distributing the  
score cards and other pretty  
hostess duties. The trio of little  
girls, in fluffy summer frocks made  
quite a pretty picture.

In addition to her small helpers,  
Mrs. Dale was further aided by her  
sister-in-law, Mrs. Hubert Dale, and  
by a group of young matrons. As  
the afternoon waned and the  
bridge games were concluded, at-  
tractive prizes were awarded. Mrs.  
John Tubbs scored high, Mrs. W.  
A. Flood, second and Mrs. Jack  
Reinsberg, low.

**Iowa Visitors**  
Are Greeted  
Among pleasant visitors in this  
city were Mrs. Martha Dyer, wife  
of the former Judge Dyer, promi-  
nent in legal circles of Nevada,  
Iowa, and her daughter, Miss Ruth  
Dyer who were guests of Mrs.  
Fanny Lash at her home, 220 Cy-  
press street.

Tuesday, Mrs. Lash and her  
guests together with Miss Holly  
Lash and Mrs. Lash, motored to  
Long Beach where a delightful  
day was spent and the Iowans had  
the pleasure of calling upon a num-  
ber of old friends. They left yes-  
terday to continue a round of visits  
with different friends and relatives  
in Southern California prior to re-  
turning to their home in Nevada.

**Missionary Society**  
The Women's Missionary society  
of the United Presbyterian church  
held the regular meeting Wednes-  
day in the church. At noon a very  
appetizing luncheon was served in  
the dining room. The mission  
study, "Ying-Kyong, City of the  
Morning Light," was conducted at  
this hour with Mrs. C. T. Eisele as  
leader. As a demonstration Mrs.  
Eisele had a typical Chinese vil-  
lage with their modes of living dis-  
played on a table. Mrs. R. R. Smith  
told of the Chinese women, and  
Mrs. Scott Torrens the citizens'  
changed attitude.

The committee in charge of the  
day was Mrs. J. B. Stewart, Mrs.  
R. R. Smith, Mrs. Scott Torrens,  
Mrs. Finley McFadden, Mrs. J. T.  
Raitt, Mrs. L. B. Skiles.  
At 2:30 p. m. the society ad-  
journing to the parlor for the regu-  
lar program and - business which  
was called to order by the pres-  
ident, Mrs. M. M. Tidwell. Mrs. D.  
P. McBurney reported that the  
\$100 for the New World movement  
was all raised.

The Women's Presbyterial will  
be held in Riverside March 24, 25.  
The delegates elected were Mrs.  
Fred Miller and Mrs. W. W. Hoyt;  
alternates, Mrs. Scott Thompson,  
Mrs. Stewart Kennedy and the lo-  
cal officers. From the Young  
Ladies' Missionary society Mrs.  
Elsie Underwood and Mrs. Walter  
Viera were named.

The program was in charge of  
Mrs. J. B. Stewart. The subject  
for study for the afternoon was  
"Adventures in Brotherhood." Mrs.  
Finley McFadden led the devo-  
tional service. Mrs. Stewart read  
a paper "Modes of Life in China."  
Mrs. Clayton Harrison subject was  
"The Old World and the New."  
Mrs. L. B. Skiles' subject was "For  
Every American a Foreign Born  
Friend."

Miss Emma Dean Anderson, a re-  
turned missionary from India, will  
be here Tuesday, March 17, and  
will speak in the church. Her talk  
will be followed by a social hour.  
All members and friends are in-  
vited.

**Friendly Group Meets**  
For Enjoyment of  
Five Hundred  
Five hundred offered its charms  
as an entertaining feature to the  
members of the A. D. club who  
last night enjoyed the hospitality  
of Mrs. Hazel Lyman and Miss  
Aimee Larson at the home of the  
former on North Parton street.

The hostesses used ferns and  
white lilies to decorate in honor  
of the event and the green was  
emphasized in various ways, sug-  
gesting of St. Patrick's day. Mrs.  
Zola Boyd scored high in the 500  
contest and received a lovely hand-  
painted china plate. Miss Gladys  
Young holding low score, was con-  
soled with a pretty dolly.

Tables were arranged attractive-  
ly for serving refreshments, with  
one tall green candle burning in  
the center of each. Green nut-  
cups and other appointments added  
to the effect which was heightened  
by the lights being dimmed and the  
scene lighted only by the candles.  
An appetizing tuna salad was  
served followed by French pastries  
and coffee.

Enjoying the evening with Mrs.  
Lyman and Miss Larson were Miss  
Gladys Young, Mrs. Eloise Ray,  
Mrs. Boss Mathis, Mrs. Sara Rom-  
man, Mrs. Olive Seba, Mrs. Nina  
Davis, Mrs. Elsie Harris, Mrs.  
Alma Salk and two guests of the  
club, Miss Cecil Dooling and Mrs.  
Zola Boyd.

**Ebell Society**  
Ebell members and their friends  
who may wish to reserve tables  
for next Monday's usual tea and  
bridge at the clubhouse, have  
been informed that reservations  
may be made by telephoning either  
to Mrs. Fay Spangler, 1966 or Mrs.  
W. H. Fairbanks, 2082-R.

The Third Travel section has  
assumed charge of the afternoon's  
program of games, entertainment  
and refreshments, with Miss Hazel  
Bemus as hostess, aided by other  
members in different groups.

**Dinner Gown In**  
Soft Chiffons  
A sumptuous dinner gown of  
black chiffon with an entire new  
creation.

**KEEPING ..**

**Kills Catarrh Germ**  
In Three Minutes  
Chronic catarrh, no matter how bad,  
and cases of bronchial asthma now  
yield instantly to the amazing discov-  
ery of a French scientist. This drug-  
less method called Laver kills the  
germ in three minutes, yet is pos-  
itively harmless to the most delicate  
tissues. Your head and lungs are  
cleared like magic. Sufferers are re-  
lieved in a single night.  
To prove it and to introduce Laver  
to a million sufferers in one month, I  
offer to send a treatment free and  
for it. No obligation. No cost. If it  
cures you, you can repay the favor  
by telling your friends—if not, the  
loss is mine. No matter what you  
have tried, just send me your name  
and address for this generous free  
treatment and prove that you can be  
rid of catarrh.

**HEATHMAN RALLIES,**  
Is Much Improved  
The condition of Col. W. F.  
Heathman, city recorder, who was  
seriously ill at his home at 320  
West Second street, was con-  
sidered improved by physicians at-  
tending him today.  
Col. Heathman suffered a stroke,  
caused by the contracting of mus-  
cles about the heart on Tuesday  
and he has been confined to his  
bed since that time. His condition  
was considered critical yesterday  
and last night, but he rallied early  
today after passing a peaceful  
night.

Phone Nine-O.

**Trio of Little Girls**  
Form Pretty Aid  
To Hostess  
Coming first in a series of smart  
social affairs planned for early  
March by different enterprising  
hostesses, the bridge tea with  
which Mrs. Loring Dale entertained  
yesterday was a most spring-like af-  
fair for which the big banquet room  
at Ebell club offered a pleasant  
setting.

The artistic peacock draperies  
of the room formed an attractive back-  
ground for quantities of spring  
flowers in brilliant colors and for  
St. Patrick's motifs which suggest-  
ed that approaching anniversary.  
This motif was apparent also in  
the tea menu which the series of  
bridges games culminated.

Mrs. Dale, one of the popular  
young matrons of the city and the  
mother of a dainty four-year-old  
daughter, added to the effective-  
ness of her entertaining by hav-  
ing the small daughter, Amy Jane,  
together with Lorraine, little Miss  
Five-Year-Old in the Hubert Dale  
home and Betty Jane Timmons,  
small daughter of the Howard Tim-  
monses, aid her in distributing the  
score cards and other pretty  
hostess duties. The trio of little  
girls, in fluffy summer frocks made  
quite a pretty picture.

In addition to her small helpers,  
Mrs. Dale was further aided by her  
sister-in-law, Mrs. Hubert Dale, and  
by a group of young matrons. As  
the afternoon waned and the  
bridge games were concluded, at-  
tractive prizes were awarded. Mrs.  
John Tubbs scored high, Mrs. W.  
A. Flood, second and Mrs. Jack  
Reinsberg, low.

**Iowa Visitors**  
Are Greeted  
Among pleasant visitors in this  
city were Mrs. Martha Dyer, wife  
of the former Judge Dyer, promi-  
nent in legal circles of Nevada,  
Iowa, and her daughter, Miss Ruth  
Dyer who were guests of Mrs.  
Fanny Lash at her home, 220 Cy-  
press street.

Tuesday, Mrs. Lash and her  
guests together with Miss Holly  
Lash and Mrs. Lash, motored to  
Long Beach where a delightful  
day was spent and the Iowans had  
the pleasure of calling upon a num-  
ber of old friends. They left yes-  
terday to continue a round of visits  
with different friends and relatives  
in Southern California prior to re-  
turning to their home in Nevada.

**Missionary Society**  
The Women's Missionary society  
of the United Presbyterian church  
held the regular meeting Wednes-  
day in the church. At noon a very  
appetizing luncheon was served in  
the dining room. The mission  
study, "Ying-Kyong, City of the  
Morning Light," was conducted at  
this hour with Mrs. C. T. Eisele as  
leader. As a demonstration Mrs.  
Eisele had a typical Chinese vil-  
lage with their modes of living dis-  
played on a table. Mrs. R. R. Smith  
told of the Chinese women, and  
Mrs. Scott Torrens the citizens'  
changed attitude.

The committee in charge of the  
day was Mrs. J. B. Stewart, Mrs.  
R. R. Smith, Mrs. Scott Torrens,  
Mrs. Finley McFadden, Mrs. J. T.  
Raitt, Mrs. L. B. Skiles.  
At 2:30 p. m. the society ad-  
journing to the parlor for the regu-  
lar program and - business which  
was called to order by the pres-  
ident, Mrs. M. M. Tidwell. Mrs. D.  
P. McBurney reported that the  
\$100 for the New World movement  
was all raised.

The Women's Presbyterial will  
be held in Riverside March 24, 25.  
The delegates elected were Mrs.  
Fred Miller and Mrs. W. W. Hoyt;  
alternates, Mrs. Scott Thompson,  
Mrs. Stewart Kennedy and the lo-  
cal officers. From the Young  
Ladies' Missionary society Mrs.  
Elsie Underwood and Mrs. Walter  
Viera were named.

The program was in charge of  
Mrs. J. B. Stewart. The subject  
for study for the afternoon was  
"Adventures in Brotherhood." Mrs.  
Finley McFadden led the devo-  
tional service. Mrs. Stewart read  
a paper "Modes of Life in China."  
Mrs. Clayton Harrison subject was  
"The Old World and the New."  
Mrs. L. B. Skiles' subject was "For  
Every American a Foreign Born  
Friend."

Miss Emma Dean Anderson, a re-  
turned missionary from India, will  
be here Tuesday, March 17, and  
will speak in the church. Her talk  
will be followed by a social hour.  
All members and friends are in-  
vited.

**Friendly Group Meets**  
For Enjoyment of  
Five Hundred  
Five hundred offered its charms  
as an entertaining feature to the  
members of the A. D. club who  
last night enjoyed the hospitality  
of Mrs. Hazel Lyman and Miss  
Aimee Larson at the home of the  
former on North Parton street.

The hostesses used ferns and  
white lilies to decorate in honor  
of the event and the green was  
emphasized in various ways, sug-  
gesting of St. Patrick's day. Mrs.  
Zola Boyd scored high in the 500  
contest and received a lovely hand-  
painted china plate. Miss Gladys  
Young holding low score, was con-  
soled with a pretty dolly.

Tables were arranged attractive-  
ly for serving refreshments, with  
one tall green candle burning in  
the center of each. Green nut-  
cups and other appointments added  
to the effect which was heightened  
by the lights being dimmed and the  
scene lighted only by the candles.  
An appetizing tuna salad was  
served followed by French pastries  
and coffee.

Enjoying the evening with Mrs.  
Lyman and Miss Larson were Miss  
Gladys Young, Mrs. Eloise Ray,  
Mrs. Boss Mathis, Mrs. Sara Rom-  
man, Mrs. Olive Seba, Mrs. Nina  
Davis, Mrs. Elsie Harris, Mrs.  
Alma Salk and two guests of the  
club, Miss Cecil Dooling and Mrs.  
Zola Boyd.

**Ebell Society**  
Ebell members and their friends  
who may wish to reserve tables  
for next Monday's usual tea and  
bridge at the clubhouse, have  
been informed that reservations  
may be made by telephoning either  
to Mrs. Fay Spangler, 1966 or Mrs.  
W. H. Fairbanks, 2082-R.

The Third Travel section has  
assumed charge of the afternoon's  
program of games, entertainment  
and refreshments, with Miss Hazel  
Bemus as hostess, aided by other  
members in different groups.

# Says Greatest Rheumatic Medicine In All The World

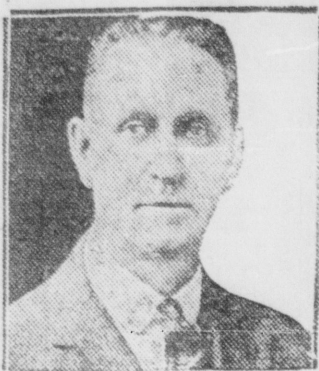

Hundreds of Bottles Being Sold Declares C. S. Kelley Who Guarantees It and Is Dispensing It to Many Sufferers in This Vicinity

"It does not matter to me whether you are disabled with rheumatism or have only occasional twinges," says James H. Allen, of 26, Forbes St., Rochester, N. Y. "I know that Allen's, my own discovery, will stop the agony, do away with the gnawing pains and reduce the swollen joints."

"I know it will dissolve the uric acid deposits that have become deeply imbedded in joints and muscles and quickly drive every trace of rheumatism from your body. I know this because I was crippled for years and now I am able to work and move freely as a well, robust, healthy man of 60."

"I know because since I cured myself, hundreds have taken Allen's and speedily rid themselves of this torturing disease."

Allen's is no laggard; it starts right in at once; it gets into the blood, searches out the poisonous uric acid deposit and in two days starts to drive the concentrated impurities that cause rheumatism, out of the body through the natural channels.

"The blessed relief this marvelous prescription quickly gives has made for it thousands of friends," says C. S. Kelley Drug Co., who has been appointed agent in your city. It is Mr. Allen's own discovery. If you live out of town ask him to send you full particulars—Adv.

# PRESIDENT TO MAKE VISITS OVER NATION

WASHINGTON, March 5.—President Coolidge will not be a traveling president during his administration in the sense that President Taft was, but he will journey away from Washington far more frequently in the next four years than he has in the past 19 months.

Already his engagement list has three practically certain trips marked down on it for the coming three months. These take in as widely separated regions as Texas, Minnesota and New England.

He has definitely agreed to visit New England, either in April to attend the 150th anniversary celebration of the Battle of Lexington, or in June to attend a similar observance of the Battle of Bunker Hill.

Assurances have been given Southwestern Republicans that he will visit Houston in May, if at all possible, to attend the convention of the Associated Advertising Clubs of the World there, and perhaps go on to Mineral Wells to attend a Chamber of Commerce celebration.

He also plans now to attend the centennial celebration of the settlement of Minnesota by Scandinavians, in Minneapolis, in June.

Besides these trips, it is probable that the president will make his annual visit to Plymouth, Vt., his boyhood home, to spend a week late in the summer with his father, Col. John Coolidge, and renew his acquaintance with the scenes of his youth. The president told friends last summer when he was at Plymouth that he had always believed it a wise policy for one to spend a few days a year in the air in which he was raised, and in keeping with this, there is little doubt that he will again journey north when the leaves begin to turn.

He has never failed to spend an annual vacation at Plymouth since he left there to seek his fortune in the late 90s, with one exception. That one time was, according to his father, when he first started law practice and didn't have the money for car fare up from Northampton, Mass.

The president will follow a policy in choosing the places he will honor with an official visit of not hitting the same place twice if he can help it. Mr. Coolidge is not so far removed from the common people that he does not remember that the visit of a president of the United States to a city is an honor long cherished in civic annals and a reminder of a president's memory that few individuals ever lose.

Outside of Washington, the persons who, in their lifetimes, see a president in the flesh, or shake his hand, are relatively an infinitesimal fraction of the 112,000,000 citizens of the nation. In all modesty then, but with a feeling that the president can do much to bring the majesty of the United States government home to the people by showing himself from time to time away

# A Story Without Words

## KIWANIANS TO CO-OPERATE WITH FULLERTON IN MAKING BID FOR UNIVERSITY BRANCH

With the local Rotary club in charge of what was voted one of the most instructive and entertaining programs ever put over by the organization, a record attendance featured yesterday's weekly luncheon meeting of the Santa Ana Kiwanis club at St. Ann's Inn.

The early part of the meeting was taken up with business matters pertaining to the Kiwanis club. Heading these were resolutions pledging the co-operation of the club with other organizations in an effort to secure the location of the southern branch of the University of California for Orange county. At the invitation of the Fullerton Chamber of Commerce, a number of those present indicated their willingness of attending a special affair to be given by Fullerton Chamber of Commerce in connection with the Orange County University Site Inspection day, tomorrow afternoon at 2:30 o'clock.

Coupled with this action, the matter of looking for and reporting upon the advisability of locating the university in Orange county, requirements, etc., was referred to the committee on public affairs, headed by J. P. Baumgartner.

Besides a large number of prominent Rotarians, the large guest list included visiting Kiwanians from all parts of the United States, several of them registering from Indiana and Ohio.

Calling attention to the presidential inauguration which had taken place earlier in the day at the national capital, Dr. M. A. Patton, president of the Rotary club, acting as chairman of the program, proposed a toast for Calvin Coolidge, the first citizen of the Republic. The mere mention of the President was the signal for a spontaneous demonstration which left no doubt how the newly inaugurated chief executive stands with his fellow countrymen in Santa Ana.

Kiwanian Radio Message  
Attracting much interest, particularly so among the radio fans present, was an announcement by George Wells, president of the Kiwanis club, that on Saturday, March 7, at 9:30 p.m. eastern standard time, there will be a special message and program broadcasted by WMC, "Memphis Down in Dixie," to all Kiwanians of the United States and Canada. He added that the Kiwanis club of Memphis has gotten up the program, and that the message he sent out is of particular interest to every individual Kiwanian.

W. S. Kellogg, chairman of the ladies' night entertainment committee, reported that all arrangements have been completed for the March event, which will be held March 24 at the Ebell club. This being the first meeting of the Ten-Week National Attendance Contest of Kiwanis clubs, President George Wells took occasion to congratulate the club on the fine showing made at the start, recording an attendance of 85.5 per cent.

Auction Billboard  
Good natured rivalry entered the proceedings when at the suggestion of O. A. Haley, a local automobile dealer, the billboard advertising space on the attendance contest score board was auctioned off to the highest bidder. The J. C. Horton Furniture company and the Kelley Roofing company secured the exclusive right to advertise their wares for one week at the rate of \$10 each. But for the restraining hand of the chairman, who acted as auctioneer, chances are that the friendly race would have gone beyond reasonable limits, more so when it was announced that the proceeds will go to the under-nourished kid's fund.

Makes Masterly Address  
The headliner of the program was a masterly address by the Rev. Dr. William E. Roberts, pastor of the First Presbyterian church, who made an impassioned appeal for practice of true fellowship. Quoting at random from Washington, the president will spread his travels around as much as possible.

Conforming to this policy, such cities as New York, Chicago, Philadelphia and Baltimore can be scratched off the sheet. Boston, Minneapolis and the Texas cities will be next to go. But there remains a vast area and a great number of cities untouched, and it is from these that future engagements of the president will be made. The south, for example, may be rung in on the Texas trip, with engagements at one or two cities going or coming. Likewise, the lower Mississippi and Missouri River valleys may be touched on the trips out or back.

The Middle and Far West have a call on the president, too, and it would not be surprising to see them picked out for a presidential call soon.

# FEDERAL TAX RETURNS SHOW BIG INCREASE

More full-paid income tax returns were filed in Southern California from January 1 to March 1 than for any corresponding period in the history of the Los Angeles Internal Revenue District, Collector Rex B. Goodcell announced yesterday.

Full-paid 1040-A returns increased 35 per cent, and 1040 full-paid returns 30 per cent over the months of January and February of 1924. The number of filed returns on which no tax was paid decreased 45 per cent, indicating an increased earning power of taxpayers, comparing 1923 with 1924.

In 1924, married persons were not required to file unless their net incomes were \$2,000 or more, but this year the limit was increased to \$2,500. The lowering of this basis was expected to cut down the number of returns filed this year, but the count up to March 1 shows that as many returns of all classes were filed this year as during the same period of 1924.

"These unusual conditions could be brought about by two causes only: Growth in population and an increased earning power in 1924 as compared with 1923," Collector Goodcell said.

Albers  
flapjack  
flour

Here is the pancake flour the West takes to its heart—and its stomach. And you don't have to be a "sharp" at cross-word puzzles to figure out the reason: **flavor!**

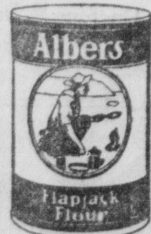

No other pancake flour can hope to rise to the flavor-heights of Flapjack; because no other pancake flour is blended in quite the same way. For instance:

No cornmeal or other heavy ingredient goes into Albers Flapjack Flour. The leavening is highest-quality. Even the salt used is as fine in texture as the flour itself. Everything that goes into Flapjack Flour goes in for just one reason:

To make sure you'll get light and airy, tender and tasty hot cakes every time. Simply add a little water or milk and bake on a hot griddle.

Albers stands  
for better breakfasts

S. A. SYMPHONY  
ORCHESTRA TO  
PLAY MARCH 11

With Wednesday, March 11, selected as the date of the orchestra recital forming the next number on the Music-Drama association entertainment course, much interest is being felt in the Santa Ana Symphony orchestra, infant musical organization of the city.

The term is especially appropriate to the orchestra, since not only is it the most recently formed musical organization in the city but its members are almost without exception, drawn from the ranks of youth. Many of the members are still in high school although a few are of more mature years. Directed by D. C. Cianfoni, their work in the first recital given at the auditorium, delighted the patrons and insured the success of the venture, a new one for Santa Ana which boasts bands, choral unions, oratorio societies, music associations and other organizations for understanding, producing and enjoying music, but never had a symphony orchestra until a newcomer recognized the large amount of talent available among the young people.

Wednesday night's program will feature several interesting numbers which will be outlined in detail later. As an added attraction the director has prevailed upon Miss Katherine Jackson, popular Los Angeles harpist, to assist. Miss Jackson is well known here where she has appeared on frequent programs. She has visited here frequently both with Mr. and Mrs. Harry Matthews, (Ollimae Enlow Matthews) and in the Burr Shafter home where a family friendship of several years ago in Ohio has been re-established.

The orchestra program will begin at 8:15 o'clock at the auditorium of the Polytechnic high school with D. C. Cianfoni, the director's baton.

WOMAN TESTIFIES  
AGAINST BANKER

LOS ANGELES, March 5.—Punctuating her story with tears, Katherine Kinsella took the witness stand in Judge Charles' court today and told how she had been "jilted" by James J. Proventure, wealthy local banker.

Miss Kinsella testified the banker cancelled their engagement and promised to find her another "rich husband." She is demanding \$50,000 heart balm.

"He told me if I would call off our engagement he would get me married to a man who had more money than he had," she said. "He said he had a prospect all lined up and ready to step off."

The girl's mother, Mrs. Richard Kinsella, of Bisbee, Ariz., described

SOME CONTRAST

On the right towers Herr Van Albert, 23, who is 8 feet tall without counting his two-quart hat; on the left, Seppie Toni, 29, who is exactly 36 inches, or one yard, tall.

Seek Indictments  
For S. D. Slaying

SAN DIEGO, March 5.—Grand jury indictments for murder against Thomas A. Johnson and Hugh McGovern, charged with killing George McMahon alias George Byrnes and Frank J. Harrington were to be asked by District Attorney Kempley today.

Two blood covered suits found in the "muddy house" were identified today by a hotel clerk as belonging to Johnson and McGovern.

the "tragic" condition of her daughter after the alleged jilting. Proventure claims Miss Kinsella herself broke off the engagement by returning the ring he had given her.

YOUNGEST POPE

Mar Ishai Shimun, but 16 years of age, is the new patriarch of the Nestorian and Assyrian church, one of the oldest Christian sects in the world. He succeeds his brother who died in a refugee camp. He speaks English and is devoted to American sports.

UNEMPLOYMENT PROBLEM  
EDITOR REGISTER: Now that our letter writing campaign is over may it not be well for us to face the question—

What is to become of the unemployed and what are their families to do—go back east to try to get another stake and knock our wonderful country?

The "Dago" said: "While my hair is black, I work hard and long hours; when my hair gets white, I'll let my money work for me; and my boys work too." And he has the right principle.

If you are a salaried man but have enough laid by that the investment of it would give you sufficient; let an unemployed man have your job that his family may have the necessities of life and an education. Hear the wall! Sure, the shoe pinches! But if there was a subscription being taken to help the Armenians or the Hindus in Baluchistan you would dig down in your pocket with a generous contribution if the names of the donors were to be published—but it is different when it comes to helping the fellow right around the corner that you see every day and know what a time he is having to meet expenses on two or three days' work a week. Give him a chance to work and he will not be asking for a contribution.

Employers will say, "What change my help." Sure! Just as good fish in the sea as ever caught." California has tradesmen from all over the world. Just because a man is using a pick and shovel today, here, is no sign he isn't capable of doing better tomorrow. A chance is what he needs. So put in the new ideas and the new workmen and see what a stimulus business will have.

Also these ladies—all capable in their lines—but if their husbands have a good pay check, let them stay home and learn to use that pay check to meet the family need, and let them learn to be mothers as God first intended them to be—but which men's inefficiency cheated them out of being. If mothers will raise their sons to be capable business men we will not have that issue—"What is to be done with the young criminal?" Mothers, be mothers to your own boys first!

Many retired business men from the east have come here to enjoy the wonderful climate. Unemployment irked them; so they have taken a little job just to help out and keep them from getting restless. Very commendable; but it takes the job from the man with the family, for often the retired man will work cheaper than the other can.

Every family in Santa Ana could have a bountiful pay check each week, if those who have sufficient would live on their sufficiency and give the unemployed a chance. If each employer would take the trouble to investigate his employees' income and see how many really needed his job—then do some conscientious weeding and try new material we wouldn't need help from anywhere, for Santa Ana has sufficient within her gates.

924 West Chestnut.

FOR STRENGTHENING LAW  
ON SHIPPING FROZEN FRUIT

Editor Register: I read in a recent issue of The Register your editorial on the bill introduced by Mr. Hartranft which is to strengthen our present law which regulates the shipment of frosted citrus fruit.

I am indeed grateful to you for this editorial as it will help us in the enforcement of our present act. It is imperative that California ship only good edible oranges and lemons if they expect to retain their present standing with the eastern trade. It is necessary for us to obtain a somewhat higher figure per box for our fruit due to the extra long haul to market, in order to compete with the Florida producers and, if we furnish our trade with a poor quality product, they will no doubt turn to that offered them by Florida.

I am sure the industry as a whole at the present time knows the boomerang effect of trying to market frozen fruit.

Your editorial will help to convince some of the producers and shippers that they should not undertake to market frozen oranges. Trusting with the help of the industry, we will be able to get the present bill passed by the legislature.

ARE YOU COMMITTING  
THIS CRIME AGAINST  
YOUR HEALTH?

An enormous number of people are weak, nervous and ailing, always complaining and doctoring, simply because they have committed the great American crime against their health—because while indoor life, overwork and improper diet have exhausted the iron from their blood, making it thin, pale and watery, they have made no effort to replace this iron which the blood must have to keep them well and strong.

You can easily determine whether you have been committing this health crime. You can get more iron by eating plenty of spinach, lentils and green vegetables. But doctors always advise people who are anemic, weak, nervous and run-down to take iron in concentrated form—organic iron. Nuxated Iron is organic iron like the iron in your own blood and like that in spinach and green vegetables. It is entirely different from the mineral iron used in the past, for it is readily assimilated and so acts much more quickly and surely. Besides, it doesn't injure the teeth or disturb the stomach. Nuxated Iron represents organic iron in such concentrated form that one dose is estimated to be equal to eating half a quart of spinach, one quart of green vegetables or half a dozen baked apples. Millions of people have used it to quickly help make rich red blood, and give increased strength, energy and endurance.

Make this convincing test: Get Nuxated Iron today and take it for only two weeks. You will notice a marvelous improvement in health and strength, or your money will be refunded. Sold under this absolute guarantee by all good druggists.

The LOW Cost  
of HIGH Quality

—In choosing furniture at Chandler's the transaction is merely an Investment in a better home.  
—The question of proper selection is not so much the money that is spent for a worthy article, but that you get so much less than what you pay for if you buy any other kind.  
—Please read that last sentence over again.  
—And remember that no price can measure the satisfaction of quality home furnishings.  
—Any price is too much to pay for inferior furniture.  
—The real saving must be reckoned in years of service.

Interest Wanes  
In 'Poison Plot'  
Exhaust Clues

SAN FRANCISCO, March 5.—Investigation of the alleged plot to poison members of the family of Frederick Hotelling, millionaire real estate developer, has virtually ceased, police admitted today.

Private detectives employed

both by Frederick Hotelling and Richard, his brother, are still at work but reported little progress. Richard is accused by Ralph P. King and Lou Madison, now in jail here, as the instigator of a plot to kill Mrs. Frederick Hotelling, giving King \$3300 to hire gunmen for the purpose. The grand jury next Monday night will resume its investigation of the case.

ONE MILLION DOLLARS  
CANNOT BUY THEM BACK

After years of abuse and neglect, improper food and drink, even a good set of teeth break down, decay and infect the body. A cool million dollars can not buy them back. Whatever has been the cause of your tooth trouble, you can have them repaired and save yourself the doubtful pleasure of rheumatism and a lot of complications that will incapacitate you from your regular work and pleasure.

Specialists in Dentistry  
Plate, Crown and Bridge Work—  
Gold, Silver and Porcelain Fillings. Painless Extraction

Economy, Consultation, High Class Work

By maintaining a joint office, we reduce our overhead expense, buy material in large quantities at great savings and otherwise save expense. This is passed along to our patients.

When the need arises, all our dentists are called into consultation on cases. In that way we not only avoid possible mistakes but enable you to get broader advice than any one man could give.

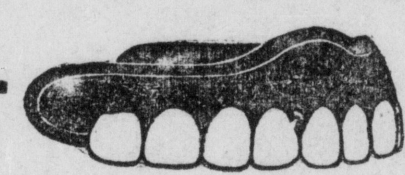

Poor dental work has no excuse for existence. The new patients who come to us on advice of friends are gratifying and proves our policy of high class work only—but at material savings.

## DEVELOPMENT SECTION

SECTION TWO

SANTA ANA, CALIFORNIA, THURSDAY, MARCH 5, 1925.

PAGES NINE TO SIXTEEN

### S. A. MORMONS PLAN CHURCH BUILDING ON CORNER SITE

Headquarters Long Beach  
Conference to Be Moved  
to Santa Ana Soon

### TO ERECT LARGER STRUCTURE LATER

Flower and Myrtle Edifice  
Will Serve As Home of  
Church Missionaries

A building which will serve the three-fold purpose of church of the local congregation, headquarters of the presiding elder of the Long Beach conference and the home of traveling missionaries, will be erected at the northeast corner of Flower and Myrtle streets by the Church of Jesus Christ of the Latter Day Saints.

Heretofore, the office of the Long Beach conference, which takes in San Pedro, Wilmington, Long Beach and all of Orange county, has been in Long Beach. Decision to move the headquarters here was made because of the desire of the church authorities to have a more central location for the office.

The structure at Flower and Myrtle streets will be erected at the rear of the lot, as it is the intention of the congregation to construct a larger chapel at the front of the property at a later date. The present building will be of stucco, 36x57 feet in size and two stories in height.

The lot is 62x123 feet in size and was purchased about a year ago. The structure will seat 175 persons. Rooms for the missionaries will be on the second floor. Elder O. A. Horsley, in charge of the Long Beach conference, expects to move to Santa Ana within a short time. With the removal of the headquarters to Santa Ana, it is presumed that the district will be designated the Santa Ana conference.

The local Mormon church has approximately 150 members. Joseph Whitehead is the presiding elder. The G. A. R. hall is being used for a meeting place. The church was organized here nine years ago.

The new building will cost about \$7000.

**INCOME TAX RETURNS** correctly prepared. "Service with Experience" of past seven years and office records available every business day of the year. ACCOUNTING AND AUDITING. ELMER B. BURNS, Room 11, Rowley Block, Santa Ana, Calif. Phone 2140.

### Plan to Sell Lots by Auction Plan

An auction sale of lots in the North Broadway Park tract will be held Friday and Saturday at 10 a. m., it was announced today by F. H. Bloodgood and J. A. Newcomer, agents. A free lunch will be served at noon. Five hundred dollars in special prizes will be given away.

Sixty-nine lots have been sold in the subdivision and 22 homes have been built. Recent purchaser are Kenneth Van Slyck and Charles D. Swanner.

A strictly residential subdivision, with stringent building restrictions, North Broadway Park is one of the most popular properties on the market, the agents say.

### BIG MILLINERY COMPANY OPENS STORE TONIGHT

"Nadine's, the Store Beautiful," will be thrown open to the public of Santa Ana Friday night, from 7 to 10 o'clock the magnificently appointed fashion center at 213 West Fourth street, established by the United Millinery company, will be the scene of a reception and preview of styles, with Thomas R. Bishop Jr., president of the company, as host to the women of the city.

The opening of Nadine's in Santa Ana, giving this city a link in the chain of stores under the ownership of the United Millinery company, is a notable event not only from a commercial standpoint, but also in the fact that it assures for Santa Ana the newest styles in millinery simultaneously with their appearance in the exclusive shops of Paris and New York.

Tonight's affair, to which all Santa Ana has been invited, is to be in the nature of a fashion demonstration, and elaborate plans have been made by the management to greet the women of the city, and explain the plans by which the latest creations of famous designers are to be procurable here at minimum cost. Attractive models will display current styles, and guests will be free to inspect the scores of modes carried in the opening stock. A feature will be the plain price-marking on all offerings, and while it is not intended to make sales during the preview and reception, reservations may be made by customers on slips provided, and hats chosen will be held until tomorrow, when the actual business opening takes place. Those attending the preview will be presented with attractive souvenirs.

No expense has been spared by the United Millinery company to make its Santa Ana headquarters compare with any style center of its kind in the west. The mission

(Continued on Page 10)

### SECRETARY OF CHAMBER GIVES FACTS ON OIL

Says Black Gold Strike  
Near S. A. Would Cause  
Great Boom Here

By A. L. OLIGER  
Secretary C. of C.

As there is considerable excitement regarding the possibilities for oil in the contemplated field just south of Santa Ana, it might be interesting to Santa Anans to realize the extensive drilling campaign now being launched by the major oil companies.

It is conceded that California produces almost a third of the oil produced in the United States and for that reason the extensive campaign of wildcatting should have considerable bearing on the future activities of many California communities.

**Boom Predicted**  
The discovery of oil in the Santa Ana field would result in thousands of people coming here from all parts of the country. Everyone would derive a benefit. Business would be stimulated and soon there would be a shortage of homes and store rooms.

The following article taken from a recent issue of "The Oil Weekly" bears out the above statements:

"It might be said that wildcatting for oil is entering upon a new era in 1925.

"With most of the territory adjacent to present production fairly well tested as to potentialities, much of the exploration for new fields will take place in areas where previous exploration will be extensive and widespread, and in most instances the work will be of that nature as to attract only those concerns whose finances permit of heavy investments in the gamble for new wells. Development will be extended to remote places where the expense of drilling will be great because of transportation obstacles and often in districts where the geological data calls for deep holes.

**Major Firms Drilling**

"No longer, it appears, is it to be a game to be played by the adventurous individual who can inveigle a few hundred dollars into a venture that will be periodically closed down for funds, but the future wildcat will be drilled after careful scientific investigation by interests with funds to see the project through."

The one phase of the above program that should appeal to Santa Anans is the fact that the major companies will do the experimenting and not the individual who cannot afford to "lose money" in oil drilling. In many California fields the public has spent considerable money foolishly in an effort to "get rich quick" only to find that the industry is a business in itself and a mighty precarious one at the best.

During January, 1924, there were a total of 53 wildcat wells drilling in the state of California, against 39 wildcats the year previous. During the month of October, there were 101 wildcats drilling in the state, dropping back to 100 even in November. These figures are taken from statistics compiled by the American Petroleum Institute. There were 92 new rigs erected in California in 11 months last year against 72 during the full year of 1923.

Following is the gross estimated production of crude oil in the United States for the month of January 1925, as compiled by "The Oil Weekly":

### W. W. Kays to Construct \$15,000 home

An eight room dwelling to cost approximately \$15,000 will be erected at 2059 North Main street by W. W. Kays of 116 West Fifth street.

The Kays structure will be a frame and stucco affair and will occupy ground space 38x52 feet. It will be two stories in height.

The contract for the building has been awarded to William Rohrbacher, who will begin construction operations immediately.

### EXCHANGE TO NAME OFFICERS NEXT MEETING

Officers of the Builders' Exchange of Orange county will be elected at the next meeting, April 16, it was announced by President George Wells at the monthly meeting held in the local Ebell clubhouse Tuesday evening. The place will be announced later.

The following nominations were made at the meeting: President, R. B. Young, Young Sash & Door company, Anaheim; vice president, E. L. Bowers, Adams-Bowers Lumber company, Anaheim; secretary, W. J. Kelly, Kelly Roofing company, Santa Ana; treasurer, Wilber Getty, G. & G. Sheet Metal works, Santa Ana; director on Los Angeles board, E. L. Bowers.

Directors: Brick craft, M. M. Allen, Orange County Brick and Tile company, Fullerton; electrical, Cal. Gilbert, Robertson Electric company, Santa Ana; general contractor, O. T. Moore, Santa Ana; lumber, Lawrence King, Hammond Lumber company, Orange; plastering, E. E. Patmor, Santa Ana; painting, W. F. Sorrenson, Santa Ana; plumbing, C. F. Carlson, Santa Ana; roofing, George H. Rogers, Santa Ana; rock and gravel, G. S. Bealy, Orange County Rock company, Orange; insurance, C. R. Harrison, Debee & Harrison, Santa Ana.

The county will receive an enormous amount of publicity as a result of the trip which delegates to the national convention of builders in Los Angeles last week took through Orange county February 23, Wells stated at the meeting. All visitors with whom he talked were favorably impressed with the southland, he said.

"To many of the delegates, the southland proved a distinct surprise," said Wells. "They came out here with the idea that builders were behind the times and on the contrary discovered that the men in the building industry in the southland are really among the leaders."

California, 18,751,900 barrels; mountain states, 23,366,656; eastern states, 3,204,600; Texas, 14,022,724; Oklahoma, 14,948,882; Arkansas, 275,925; Kansas, 2,729,240; Louisiana, 1,752,244; total, 61,023,171 barrels.

**BALLROOM DANCE**  
Saturday night at Newport Beach. Come, we will have some fun. Dysarts 7 piece Orchestra.

### BOY SCOUT BUILDING NEARING COMPLETION

Above is pictured the future headquarters of the Scout organization of Orange county. The building has one large room and three smaller ones.

### CONTRACTORS' EXECUTIVE BELIEVES 1925 BUILDING WILL BREAK ALL RECORDS

LOS ANGELES, March 5.—Reports from towns throughout Southern California indicate that with the coming of spring, building and construction activities will take on new life and the total volume of construction for 1925 will equal, if not exceed that of last year, declares E. Earl Glass, executive secretary, Southern California chapter, Associated General Contractors of America.

The construction of homes and small commercial buildings in Southern California for the first two months of this year has not shown any marked decrease in volume, Glass says. A survey of building conditions show that there is an upward trend in this class of construction. During the last three months there has been considerable activity in the construction of educational institutions and recent reports available show that during this year more than \$30,000,000 will be made available for school buildings, he states.

"With the rapid influx of population it has been almost impossible for the school boards to erect structures fast enough to properly house the pupils," declares Glass.

"This condition is one with which every school district in Southern California has had to contend. Another class of building that promises to reach the high mark during 1925 is the theater building. In virtually every town along the southern coast plans are under way for theater buildings which vary in cost from \$100,000 to \$400,000 and in all probability the greater per cent of them will be completed before the close of the year."

### Directors Of State Body to Meet In South

A call for the board of directors of the California Real Estate association to hold their quarterly session at San Diego on Saturday, April 4, was issued this week by State President D. Richard Ainsley.

The sessions will last all day, and a luncheon will be tendered the directors by the San Diego Realty board. The sessions will be held in the sun parlor of the Hotel San Diego and the banquet in the Pompeian room.

The quarterly conference of the California State Association of Real Estate secretaries will be held on the same day at the same place, according to a call issued by President John N. D. Griffith.

Let Holmes protect your homes.

### REALTORS' HOME GROUP TO MEET

Plans are going ahead for the all day session of the own your home division of the California Real Estate association to be held at the Hotel Maryland in Pasadena, Saturday, March 21. The program is now being worked out by Chairman Clifton J. Platt, who proposes to have more than 50 boards represented and participating in the conference. The goal of the divisional chief is to have the realtor help every citizen become the owner of his home. Such an ideal realized would almost double the number of home owners in California, it is believed.

The campaign started this year by the state association, Chairman Platt said, is to continue from year to year until the home owner is so universally in evidence that the state will really be the "goal of the ages."

**BALLROOM DANCE**  
Saturday night at Newport Beach. Come, we will have some fun. Dysarts 7 piece Orchestra.

### SCOUT OFFICE ON SYCAMORE READY TUESDAY

The new Boy Scout building on Sycamore street, across from the M. C. A., is rapidly nearing completion and will be ready for occupancy next week, probably by Tuesday, it was announced today by Roland E. Dye, Scout executive.

The headquarters in the Hill building will be moved to the new location immediately upon the completion of the structure. The need for additional room has been felt for some time.

The building on Sycamore is a one story frame affair, with one large room and three smaller ones. Plans were drawn by the architectural firm of Wyvill & Bryan.

The contractor is E. A. Noe.

"The building was made possible by the confidence of a number of Orange county people that Scouting is an established concern and that it should not be handicapped by lack of office, conference or storage facilities," said Dye today.

### Realty Board at L. B. Adopts New Selling Method

LONG BEACH, March 5.—The Long Beach Board of realtors has established a new departure in the selling of real estate, upon recommendation of its industrial committee. The board, as a body, will accept exclusive listings and each member will put his salesmen at work to move that piece of property. A special appraisal committee will inspect each proposition, advise the owner whether the price asked is one that will be attractive to buyers.

No fictitiously high values will be considered by the committee, and in case the owner is uncertain as to what to ask, he will be informed what price ought to move his property. The price being set satisfactorily, the listing will be placed in the office of every member of the board. One fourth of the usual commission will go toward the upkeep of this department of the board activities. A large Los Angeles firm was the first concern to place its property with the Long Beach board under this new plan.

### Pour Cement for Foundations of Vendor Building

Pouring of cement for the foundations of the Vendor Distributing company's building in the Central Industrial district started yesterday. It is expected that the structure, which will be three stories in height, will be completed and ready for occupancy by June 1.

Gum, candies and slot machines will be manufactured in the factory, which will cost \$50,000.

### KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

### IMPORTANCE OF FARMING IS STRESSED AT LAND MEET

Agriculture Is Declared  
Basic Industry By L. A.  
Chamber's Specialist

### FARMING IS NOT PLUNGER'S GAME

Realtors Urged to Make  
Study of Agricultural  
Conditions In State

"Real estate men should be conversant with the general agricultural situation of the United States and particularly informed of those conditions in California," Dr. George P. Clements, manager of the agricultural department of the Los Angeles chamber of commerce, declared in a paper read last week before the second annual Imperial valley farm lands conference conducted by the California Real Estate association at the Hotel Barbara Worth in El Centro.

Dr. Clements said in part: "Agriculture is the basic industry of the world, the industry upon which all other industries are built. It pays 70 per cent of the taxes. It is the biggest consuming class. The reason the farmer has been slowly getting readjusted to post war conditions is that he is not receiving the pay for his crop but is being loaned money upon it. The farmer in these readjustment times has been handicapped from 30 to 60 points between those things he sells and those things he buys."

**Not Plunger's Game.**  
"The farming industry has never been and never can be looked upon as a plunger's game. The farmer's legitimate business is the production of food for the nation at cost of production plus a reasonable return on his investment. Agricultural requisites are greater than in any other line of industry when things other than actual acquisitiveness are considered. California's agriculture has become speculative at a cost of these requisites."

"From the other angle, land right, water right, price right and crop adapted to climatic conditions, California offers the agriculturist more of the things which really count to make life worth while than does any place else in America."

"Acre value from the agricultural angle is based on net acre earnings. Quantity and situation of land, plus cost of water, dictate type of production in California. "Land alone is the cheapest thing we have in California. Uncle Sam has 19,626,172 acres all for the asking, and none of it worth a pants button except for the pleasure of gambling."

**State Offers Most.**  
"California agricultural lands, soil right, after right, climate right, offer more to the husbandman in things that count than anywhere else on earth."

"Although production costs are higher, acre yields are correspondingly greater and quality of production superior."

"It takes the highest type of man, however, to be a successful farmer in California; one has to mix gray matter with the soil. He must also be a business man. He must be an opportunist. He must remember that his job is production of food, not the accumulation of money; that his farm is his bank, his business as well as living."

(Continued on Page 10.)

### SAVE with SAFETY at MATEER'S

## There is a Difference in Plumbing—

Why do you pay Ten dollars for a pair of shoes when you can buy a pair for two dollars and a half?

Because there is a difference in shoes and any one can see it. But take bath tubs; that is different. A bath tub is a bath tub, so why pay more for one than another? Of course, there couldn't be any difference in bath tubs.

Then take the plumber that installs the tub. Does he have one mechanic and three helpers that work for him, with the three helpers doing most of the work that you are paying to have a mechanic do?

We do not have any helpers in our employ. We hire only first class mechanics, so why take a chance with your plumbing? Let us figure with you on your next job.

## Receive Low Bids for Creek Bridge

Bids below the engineer's estimate were received by the California Highway commission Monday when bids were opened by the state highway engineer in Sacramento for the construction of a reinforced concrete bridge over San Juan creek on the Los Angeles-San Diego state highway, close to San Juan Capistrano, according to word received here today.

The new structure will replace an inadequate wooden bridge erected a number of years ago following floods in San Juan creek. Stevens Brothers and Haas of Lomita were the low bidders with an offer of \$26,792.50 against the estimate of \$33,582.50. The contract will be under consideration when the commission meets next week in Sacramento. It will be financed from the state's share of the 1925 gasoline tax revenues.

## MILLINERY FIRM TO OPEN STORE

(Continued from Page 9.)

Type has been utilized in the interior furnishings, and the fixtures of the main show room are in Circassian walnut. Attractive mirrored parlors have been arranged for the display of higher-priced or more exclusive styles. Besides its plan to guarantee that every hat from Nardine's is fashionably correct, and to keep pace with all the stores of New York and Paris, the management is to make a specialty of courteous, unobtrusive service, with the idea of satisfying the client ever uppermost.

Mr. Bishop has unbounded faith in the future of Santa Ana, and anticipates a big future growth for commercial enterprises here. He is widely known on the coast for his activities in the millinery field, and for his philanthropies. He is active in the management of the ten stores conducted by his company, and is treasurer of the Retail Millinery association of Los Angeles. He is a member of the Elks and the Masonic order.

Closely associated with Mr. Bishop in the United Millinery company is H. P. Inman, secretary and treasurer, who for many years was connected with one of the largest retail millinery chain store systems in the east, and is regarded as a foremost expert in his line on the Pacific coast. Mr. Bishop and Mr. Inman will attend the reception and preview, coming on a special car from Los Angeles, in company with a group of New York and Los Angeles manufacturers. Mr. Bishop has just returned from the east coast, where he went to consult with the firm's New York and Paris buyers, with special reference to the "Store Beautiful" in Santa Ana.

## L. A. Janitor Is Mayor Candidate; Would 'Sweep Out'

LOS ANGELES, March 5.—Promising to make a clean sweep of corruption if elected, G. J. Rindler, janitor in a local laundry, announced his candidacy today for mayor of Los Angeles.

Rindler was picked by the Socialist-Labor party to be their candidate for the Angelino mayoralty.

He promises some "sweeping" innovations if elected. "A new broom sweeps clean," is his campaign slogan.

"I've kept the laundry where I work clean for a number of years, and when I'm mayor I'm going to sweep the rascals out of the city hall," he declared.

Ask your grocer for a loaf of Queen bread baked at the Home Bakery.

Vacuum cleaners repaired. Fix-it Shop, 105 E. Third. Phone 2520.

## KELLOGG IS SWORN IN AS NEW SECRETARY

WASHINGTON, March 5.—Frank B. Kellogg hung up his hat in the secretary of state's office today, faced a pile of important documents on the desk, cast a longing glance out the window to the Washington monument and the Potomac, and then set to work.

He started the diplomatic wheels of the new administration in motion by calling in Under Secretary Joseph Grew, the four assistant secretaries and various departmental heads, and inviting them to remain and help him as ably as they had served with Secretary Hughes. They accepted.

Although it is generally believed here that Kellogg accepted the chief cabinet post only for a year, with the intention of then retiring from public life, he gave no intimation of this today when he received his staff and the press.

Kellogg in appearance and temperament is unlike his vigorous and intellectually militant predecessor, who for four years conducted the foreign affairs of the nation almost single-handed. Apparently the new secretary intends to let President Coolidge share much of the burden of initiating policies and making critical decisions.

Criticism of Kellogg has died down since the announcement of his appointment in January. His record as ambassador during the last year to Great Britain has been one of quiet achievement, his criticism admitted.

He is credited with ironing out many of the difficulties between the various political delegations and the bankers at the London conference, which launched the Dawes plan for collection of German reparations and European stabilization. At the recent Allied financial conference to allocate reparation payments in Paris, he headed the American delegation which overcame Allied objection and secured 2 1/4 per cent of the Dawes fund to cover American war claims against Germany.

Pending Problems  
Many major problems of foreign policy have been allowed to pile up by Hughes during the last two months, pending the arrival of the new secretary. Though the president is known to be giving careful personal attention to these matters, Kellogg is expected to go over the latest department files on these problems and, on the basis of his recent European experiences, advise Mr. Coolidge as soon as possible. Among the more important are:

1—The President's proposed Washington Arms conference, which is expected to meet this year, probably in the autumn.

2—The debts owed this country by France, Italy and other allies, which have not yet funded.

3—Relation of this government under the Paris agreement and Dawes plan to alleged foreign entanglements connected with Allied military occupation of Germany and contemplated Allied "security pacts."

4—Russian relations, and the appointment of a commission negotiate with Moscow, leading to probable recognition.

5—Far Eastern problems growing out of the civil war and anti-foreign sentiment in China, Japanese suspension of the United States, the potential Asiatic Alliance of Russia, China and Japan, and the unraveled Far Eastern treaties of the First Washington Arms conference.

6—Latin-American questions, including withdrawal of American marines from Haiti and Nicaragua, the treaty with Panama, and regularization of relations with the revolutionary government of Chile.

7—Relation of the United States to international activities of the League of Nations, including its proposed disarmament conference, its conferences on control of traffic in white slaves and arms hitherto participated in by America, and its opium conferences from which this country has just withdrawn.

With the exception of a changed Russian policy, leading to eventual recognition, the Coolidge-Kellogg foreign policy is expected to follow along the general lines set by Hughes. The increased power of William E. Borah, as the new chairman of the important Senate committee on foreign relations, however, will have an important effect on these policies, it is believed.

## IMPORTANCE OF FARMING STRESSED

(Continued From Page 9.)

Taking these things into consideration, he is in the safest, most independent position of any profession in the world.

"We have some 3,000,000 acres of land in California ready and awaiting this class of husbandry, and 2,000,000 acres now being differently farmed awaiting purchasers."

"Remember that American agriculture has been living off its capital for the past five years while its production has made possible the industrial prosperity of the nation."

**FINE YOUNG McADOO**  
LOS ANGELES, March 5.—It cost William Gibbs McAdoo Jr. \$25 for speeding on a Hollywood boulevard. The son of the former secretary of the treasury pleaded guilty in court here to a charge of speeding and paid his fine. His wife bailed him out a week ago when he was arrested.

## TWO HELD IN MURDER PLOT

"Wild parties did it—I guess I am the goat," says Ralph P. King, above, held in San Francisco on a charge of having engineered a plot to kill three members of the wealthy Hotelling family. "Russian Lou" Madison, below, admits he was to have been one of the gunmen on the job, that he accepted his share of a \$3300 bribe to do the job, but that he left town after being paid with no intention of ever carrying out his end of the bargain.

## Hollywood Pair Lose Lives As Auto Overtakes

HOLLYWOOD, March 5.—Two persons were killed when their automobile overturned at a boulevard intersection here early today. Zella Demuir, film "extra," was killed outright, and H. Bruce Breene, driver of the machine, died shortly afterward from a skull fracture.

Witnesses told police that the machine was driving at a high rate of speed when it struck a rough spot in the pavement and turned over several times.

Before dying Breene told hospital attendants that he met Miss Demuir at the United Studios and invited her for a ride.

Radio supplies at Hawley's.

## PRESIDENT OF GERMANY IS BURIED TODAY

BERLIN, March 5.—Fritz Ebert, first president of the German republic, was buried in Heidelberg today. The president's body was lowered to rest with simple services in a little mountain cemetery near the scene of his birth.

When the funeral train ended its long journey to Heidelberg the townspeople turned out en masse to honor the man they had known in boyhood as a saddler's apprentice. The body of the dead president was buried beside that of his father.

Having paid final honors to its first chief executive Wednesday, the capital turned its attention to the presidential campaign, which begins when the government plans to ask the reichstag to approve March 29 as election Tuesday.

Politicians are endeavoring to draw a lesson regarding republicanism and monarchism from yesterday's demonstration in connection with the nation's final tribute to Ebert.

The general concern seems to be that the republican spirit is still most active, despite the death of the leader. Whether the election campaign will be fought by a large field of candidates or whether the left and right will bury factional differences and present only one candidate each, is a question causing much speculation.

**PILGRIMS VISIT VATICAN.**  
ROME, March 5.—Five hundred pilgrims from Boston, headed by Cardinal O'Connell, attended solemn high mass at St. Peter's today. The mass was celebrated by Cardinal Merry Del Val, who also administered holy communion.

See Mary Turner outwit the police in "Within the Law." Walker's March 12th-13th.

## Charity Ball at Capital Marked By Gay Splendor

WASHINGTON, March 5.—Splendor worthy of a court levee marked the charity ball which brought inauguration day ceremonies to a close in a brilliant spectacle last night.

More than 4000 guests, ranging from Vice President and Mrs. Dawes through all the military, naval and official hierarchies to visitors from the country, surged through the gaily decorated lobby and ballrooms of the Mayflower hotel, until early morning. President and Mrs. Coolidge did not attend.

Beautiful gowns were plentiful among the guests. Bright shades led, with red in the majority. Waist lines and belts were missing, trains and draped models were scarce. Chiffons and satins were the most popular materials with few velvets and many metal cloths and laces.

## Legal Notice

## NOTICE INVITING SEALED PROPOSALS

Pursuant to statute and to Resolution of the Board of Trustees of the City of Santa Ana, directing that the City of Santa Ana invite sealed proposals for the following work in said City, to-wit:

(a) Kilson Drive from the North line of Bishop Street to the South line of Wakeham Avenue.  
(b) Bishop Street from a point twelve (12) feet West of the North line of Kilson Drive to the West line of Kilson Drive.  
(c) Wakeham Avenue from the East line of Oak Street to the West line of Kilson Drive.  
And where any street or alley intersects or terminates in any of the above described portions of streets, in, on and along which work is to be done and improvement is to be made, then beyond the curb line and across the sidewalk reservations to the property lines of the lots.

The work and improvement on the above described portions of roadways is more particularly described as follows:

The grading of the above described portions of roadways is a subgrade of five (5) inches below the

## Legal Notice

finished grade, and the construction thereof of a three and one-half (3 1/2) inch Asphaltic Concrete base, over a one-half (1/2) inch Asphaltic Concrete wearing surface.

2. The construction of concrete sidewalks on the above described portions of streets where sidewalks do not exist and as shown on the plans to be constructed.

3. The excavation for and the construction of main sewer lines, lateral house connecting sewers, and flush tanks, of the materials and at the places where shown in the plans, profiles, cross-sections and specifications hereinafter referred to.

4. Such other and further improvements as are noted on the plans, or set forth in the specifications hereinafter referred to, which said plans, profiles, cross-sections and specifications shall be made to the work done and the materials and quality and place of the construction of the said work.

Excepting from the above described work other than sewers or sewer trenches, the portion thereof within any area which is required by law to be kept in order and repair by any person or company having right-of-way on any of the above described streets.

All of the foregoing work is fully set forth, delineated and described on the plans, profiles, and cross-sections in the office of the City Engineer, and the specifications for the same, which said plans, profiles, cross-sections and specifications were adopted by Resolution No. 1404, on the fifth day of January, 1925, by the Board of Trustees of the City of Santa Ana, and the plans, profiles, cross-sections and specifications are hereby referred to for a full and detailed description of the work.

Notice is hereby given that sealed proposals to represent unpaid assessments, and to be interested in the same, six (6%) per cent per annum, will be issued hereunder in the manner provided in the last installment of the Act of 1917, the last installment of which bonds shall mature nine (9) years from the first day of July, next succeeding ten (10) months from the date.

The expense of said work or improvement is by said Resolution, intended made chargeable upon a district, which said district is described in and by the said Resolution, and is shown by a plat or map thereof on file in the office of the City Engineer. All of said work to be done according to the specifications and adopted for said work.

Reference is hereby made to said Resolution of Intent No. 1429 of said City, declaring its intention to order the said work to be done, for order particulars, which Resolution is on file in the office of the Clerk of the City of Santa Ana.

Bids for doing said work are invited as follows:

Item 1. The grading to a subgrade and the laying of a three and one-half (3 1/2) inch Asphaltic Concrete Base overlaid with a one and one-half (1 1/2) inch Asphaltic Concrete wearing surface, complete with the furnishing of all necessary equipment, labor and material on an estimate of 661.77 linear feet for the sum of \$1,111.00.

Item 2. The excavation for and the construction of concrete sidewalks, complete with the furnishing of all necessary equipment, labor and material on an estimate of 661.77 linear feet for the sum of \$1,111.00.

Item 3. The trenching, furnishing and laying of six (6) inch main sewer complete with the furnishing of all necessary equipment, labor and material on an estimate of 418.8 linear feet for the sum of \$753.60.

Item 4. The trenching, furnishing and laying of six (6) inch main sewer complete with the furnishing of all necessary equipment, labor and material on an estimate of 418.8 linear feet for the sum of \$753.60.

Item 5. The excavation for and the construction of one (1) concrete flush tank complete with the furnishing of all necessary equipment, labor and material for the sum of \$1,111.00.

All proposals or bids shall be accompanied by a check payable to the City of Santa Ana, certified by a responsible bank, for the amount of the bid, not less than ten per cent (10%) of the aggregate of the proposal, or so payable, signed by the bidder and so certified by the bidder before an officer competent to administer an oath in double the said amount, and over and above all statutory requirements.

Said sealed proposals shall be delivered to the Clerk of the City of Santa Ana, on or before 2:00 o'clock P. M. on the 16th day of March, 1925, said time being not less than ten days from the time of the last publication and posting of this notice.

Bids will be opened on said day and hour. The Board of Trustees of the City of Santa Ana reserves the right to reject any and all bids or proposals. Dated this 3rd day of March, 1925.

Attest:  
E. L. VEGELY,  
Clerk of the City of Santa Ana.

NOTICE OF ELECTION FOR TRUSTEES OF BOLS SCHOOL DISTRICT

## Financial and Market News

## CHICAGO BD. OF TRADE

CHICAGO, March 5.—Grains finished generally higher on the Board of Trade today. The opening was high.

Corn underwent a drastic break but recovered at the close with wheat continued heavy. It was almost impossible to place lower grades.

Oats attracted attention because of the low price and light movement. Provisions closed at the top. Higher hogs created spirited packed buying.

Police News

The following fines were levied against motorists in Justice Kenneth E. Morrison's court yesterday: Wallace J. Rimpau, Los Angeles banker, charged with speeding 47 miles per hour and reckless driving, \$50. Martin H. Davis, speeding 35 miles an hour past intersection, \$25; D. T. Simpson, speeding across intersection, \$30; Harry J. Dulls, Los Angeles, speeding 45 miles per hour, \$35; George W. Coover, Glendale, cutting in, \$20; Frank Riggs, Huntington Beach, speeding 45 miles per hour, \$35; William Durlinger, speeding 48 miles per hour, \$35; George Owen, speeding 49 miles per hour, \$35; George Whelan, 48 miles per hour, \$35; G. A. McClure, 45 miles per hour, \$35; T. Endo, cutting in, 43 miles per hour, \$40; J. M. Craven, 45 miles per hour, \$35.

City Recorder W. F. Heathman is seriously ill at his home at 320 West Second street. During his absence, several cases that scheduled for trial will be heard by Justice K. E. Morrison.

Mrs. E. Bennett, 1527 Dresser street, reported to police yesterday that she had been bitten by two dogs, one at Fifteenth and French streets and the other at First and Sycamore streets. Poundmaster Fawcett was ordered to watch the dogs for signs of rabies.

Chief Criminal Deputy Ed McClellan, who has been ill at his home at 207 South Main street for several days, was able to return to his duties at the sheriff's office today.

C. D. Flowers, deputy jailer, will leave here tomorrow for San Quentin, where he is taking Henry Scottall, negro, of Fullerton, recently convicted of burglary in the superior court and given a term of from 1 to 15 years.

R. D. Baldwin, yesterday sentenced to serve five days in the Orange county jail on a charge of speeding, last night was admitted to jail to begin sentence. Baldwin was in a hurry to serve his time, he told Justice Kenneth Morrison, as he is planning a trip to Hawaii.

The automobile thief who February 4 stole an automobile here belonging to Donald Hillyard, 1014 West Myrtle street, later abandoning it in Oakland, where it was found by the police on February 12, also stole a bicycle in San Bernardino, according to a report received by the local police from officers at San Bernardino.

CROSSWORD PUZZLE

Words of from two to seven letters make this a model puzzle. It is of average degree so far as solving it goes, so that little difficulty should be encountered.

HORIZONTAL

1. Food for cattle.
7. King's seat.
13. Arranged.
14. Skies.
15. Far down.
16. Bishop's cap.
17. To help.
18. Pronoun.
19. With legs stretched apart.
20. Ego.
21. Border.
22. Contraction over.
23. To shred.
24. A division of house.
25. A yellow alloy.
26. To chirp.
27. Printer's square type.
28. To feel pain.
29. Small.
30. Point of compass.
31. Go in.
32. Stagers.
33. Indefinite article.
34. Mule's papa.
35. Everyone.
36. Measure of area.
37. Ship.
38. To guide.
39. Otherwise.
40. Location.
41. Rodent.
42. Measure of medicine.
43. Bone.
44. Pressed.
45. Conjunction.
46. Stir up.
47. Garret.
48. To demolish.
49. A mark.
50. A small bird.
51. Young boys.
52. To part.

VERTICAL

1. Liberty.
2. Metal.
3. Gentle knock.
4. Yes.
5. Jewels.
6. Head of a newspaper.
7. Possessive pronoun.
8. To congregate.
9. Sun god.
10. Eggs.
11. Beak.
12. Poes.
13. To stick.
14. Treeless land.
15. To step.
16. Advance.
17. To flow out.
18. Recited.
19. Point of compass.
20. To consecrate.

# DEMPSEY ASKED TO PICK NEXT OPPONENT

Ban Johnson's suggestion that pennant-winning teams be prohibited from making a spring exhibition trip together has resulted in numerous protests from within and without the baseball family. Johnson's suggestions always have a way of arousing criticism from certain quarters, but in this case the protest was more general.

In making his suggestion, Johnson said that it would cheapen the world's series and decrease interest in the big leagues. Perhaps he is right. He doesn't want baseball cheapened and neither do the club owners, because the only way baseball can really be cheapened has always been avoided carefully by the magnates. The price of tickets remains the same.

Perhaps Johnson is right that a spring world's series played between the major league champions would not be good for baseball. No one who is familiar with the ways of baseball players would think that the players would be as keen for victory on an exhibition tour as they are in a world's series when about \$4000 apiece, representing the difference between a winner's and loser's share is at stake. A long series of games might result in some hippodroming.

Players have grumbled ever since the club owners found that they could pick up a lot of money by engaging in a flock of exhibition games on the way north from the spring training camps. The players get nothing for their labor and the hops from town to town are not designed for comfort or convenience. No player is going to risk injury in an exhibition game that might put him out for the season or end his career in the big leagues. The players also may ask why two champion teams should be permitted to play an exhibition series when pennant-winners are not allowed to barnstorm as a team in the fall, when they could make some money for themselves.

There is a silly argument being advanced that baseball belongs to the public and that the residents of towns far distant from the big-time circuits have a right to see the champion teams in action. When did baseball ever belong to the public and what of it? Baseball belongs to the major league club owners. They make the rules and set the prices.

Club owners like to make believe that baseball is the people's game, but you go up to the ticket office before a game and ask for a ticket to see your game, but he sure and duck fast when you do it. The club owners do not arrange spring exhibition trips as a missionary idea. They do it for the money they can get out of it and you can't blame them for that, but they ought to admit it and not hide behind sentiment.

Johnson may have advanced the suggestion as a subtle dig at Commissioner Landis because the commissioner gave his consent to the Giants and the Senators when they were making their plans. Major league teams do not have permission to arrange exhibition games under ordinary circumstances, but it was a new idea to continue the world's series in a long spring schedule.

Spring exhibition games are a hazard both to the players and the club owners. Several bad accidents have happened in the past. The case of Chuck Fawcett is well remembered. Fawcett came up to the New York Yankees as one of the most promising youngsters developed in years. He was a sensation in the training camp and he gave every promise of being a wonderful player. In one of the exhibition games against the Brooklyn Robins he was hit on the head by one of Jeff Pfeffer's fast balls and was almost killed. He never has been much of a player since then.

Pitchers complain that too much bearing down in the early games brings on sore arms that sometimes last during the entire season and reduce their effectiveness. Dooley injured his spine in a fall from a horse after the close of the football season.

Public stenographer, Moore Bldg.

## MINUTE MOVIES

**ED WHEELAN'S SERIAL**  
**BLACKMAIL**  
EPISODE NINE  
"TRACKED THRU THE AIR"

THE AEROPLANE MANAGES TO FOLLOW THE BLACKMAILER'S PIGEON OVER THE GREAT CITY AND OUT INTO THE COUNTRY

LOOK! NOW IT SEEMS TO BE MAKING FOR THAT OLD FARM HOUSE!  
OH, GOLLY!

WITH HER GLASSES HAZEL KNUIT, THE DETECTIVE, SEES THE BIRD FLY INTO A DOVE-COTE

I SEE IT! THAT MUST BE THE BLACKMAILER'S PLACE ALL RIGHT! NOW SEE IF YOU CAN MAKE A LANDING NEAR BY!!  
JIMMIE CHRISTMAS

WHAT FEARFUL THING DOES JENNY FEAR? WHAT IS GOING TO HAPPEN? - WELL, YOU KNOW HOW YOU CAN FIND OUT!!

JENNY, THE DAUGHTER OF THE MYSTERIOUS MR. X CALLS HIS ATTENTION TO THE SOUND OF THE PLANE'S MOTOR

WHAT'S THAT, PA? DO YOU HEAR IT? OH, I'M AFRAID!!

NONSENSE, CHILD, IT'S PROBABLY SOME MOTOR-CYCLE ON THE BACK ROAD - WELL, I GUESS I'LL GO AND SEE IF OUR PIGEON IS BACK YET!!

HAVING SHUT OFF HIS ENGINE, ROGER RICH, THE SON OF THE BLACK-MAILED BANKER, GLIDES THE AEROPLANE TO A SAFE LANDING IN AN ADJACENT FIELD

GEH, UHIZZ

DON'T LEAVE ME, PA! I FEEL SOMETHING AWFUL IS GOING TO HAPPEN! THERE - THAT NOISE HAS STOPPED NOW! WHAT DO YOU SUPPOSE IT MEANS?

SAY, YOU GIVE ME THE CREEPS WITH YOUR FEARS!! BELIEVE ME, WHEN THAT PIGEON RETURNS WE'LL BEAT IT OUT OF THIS COUNTRY AND GO BACK HOME!!

WHAT FEARFUL THING DOES JENNY FEAR? WHAT IS GOING TO HAPPEN? - WELL, YOU KNOW HOW YOU CAN FIND OUT!!

## BASEBALL'S MOST BRILLIANT PERFORMERS

## S. A. BOWLERS LOSE TO LOOP LEADERS, 3-1

Collapsing in the tenth frame of both the second and third games, in both instances after they had acquired a lead, the Bowles Motor company, Santa Ana representatives in the Southern California Bowling League, dropped a 3 to 1 series to the team-leading Arcade Alley five at Long Beach last night.

The local men managed to capture the opener by the skinny margin of three pins but were worsted in the next two games and also lost total pins point. In the tenth frame of the second game Santa Ana failed to mark while all of their rivals marked and two struck out.

Guy Martin topped the local quintette with a 575 series. Penny Jones, 216 was best individual game. The results:

Arcade Alley			
	1st	2nd	3rd Tot.
Doolittle	185	181	366
Mandotte	158	208	366
Evans	156	198	354
Bowen	184	195	379
Taylor	215	183	398
Totals	898	975	929 2782

Bowles Motor Co.			
	1st	2nd	3rd Tot.
Ames	171	190	361
Larrison	139	185	324
Jones	216	189	405
Martin	189	201	390
Gordon	186	157	343
Totals	901	922	861 2694

## GOLF TEAM IS ORGANIZED BY S. A. STUDENTS

A challenge to meet in match play and in a home-and-home series any similar organization in Southern California was broadcast here today by the Chals Golf club, an association composed of Santa Ana junior college and high school students.

Fullerton, perennial rival of the local school, will be the first objective of the club's team, it was announced. The North county high school and junior college boasts a fine golf aggregation which is expected to act favorably on the request for a match in the next few weeks.

Leland Clark, one of the strongest young players in the new Santa Ana Country club, has been elected president of the Chals club. Clark has won several of the sweepstakes at the Santa Ana links. Sylvan Karion is secretary-treasurer. Alan Smith is chairman of the handicap committee of which Herb Smith and Charles Reed also are members.

Other players affiliated with the club are Winton "Buddy" Hoyle, whose scorescard usually read in the 80's; William Garrison, Roy Shipp, Ralph Selway, George Decker, Harold Vieira and Jerry Hayes Ed Covington, the Santa Ana high school football coach, is faculty advisor and honorary member.

Several other high-powered mashie swingers are expected to join the club.

The team will play its matches over the links at the Orange County Municipal links, formerly the Orange County Country club. If the local team meets Fullerton, one of the matches, it is expected, will be played on the Hacienda Country club course.

## POLY NINE IN 9-7 WIN OVER COLLEGE TEAM

Reister and Spencer, Left Handers, Toil on Turret For Coach Kidman's Men

Pill maulers of the Santa Ana high school baseball team gave the Santa Ana junior college nine a 9 to 7 defeat in the Poly lot in the first of the season's practice tussles yesterday afternoon.

The collegians were let off easy with the close score considering the decided edge Coach Lyman Kidman's aggregation held. Three runs were made by the high school before a college player had crossed the home plate.

Reister and Spencer, high school college sluggers well in hand, allowing only two runs up to a sixth inning outbreak when five runs were tallied in succession.

In the fifth inning the high school team plastered the ball about the lot for a total of six runs. "Crip" Marston, portside heaver for the college nine, disposed of most of the Poly batsmen but during the disastrous inning, he lacked support by his teammates in checking the onslaught.

Heavy hitters for the high school were Captain Norton Seigel and Reister. On the college team, Clark, Armstrong and Lutz pelted the ball for safe blows.

The lineup:

Junior College	High School
Reister	Seigel
Spencer	Middlebrook
Marston	Seigel
Righter	Norton
Dunkin	Daley
Clark	Schoettler
SS	Edwards
LF	Edwards
CF	Edwards
Clayes	Stierel
Chaffee	Detwiler
Schroll	

## THE 13th HOLE

How Circumstances Conspired at Inverness to Cheat Leo Diegel Out of the Open Honors

It was at the Inverness club that Leo Diegel found himself on the threshold of international fame, a mere mashie shot, so to speak, from the open championship.

At the thirteenth hole where so many golf ambitions have trembled and toppled to ruin, Diegel was apparently all set to sail into the harbor of riches and contentment. But something happened.

Diegel changed horses, or rather caddies, in mid-stream and the misfortune that followed whipped him. Diegel had played the first nine holes of his last round and was going well when a famous amateur, who had finished his march, prevailed about the young professional to let him carry his sticks—and advise him.

The amateur was well meaning enough, and Diegel was probably delighted at the attention. So away they went. Diegel clicked off par at 10, 11 and 12. Immense galleries were clattering the clubhouse that a young American

## SELECTION OF RIVAL PUT UP TO CHAMPION

Challenges of Gibbons and Wills Forwarded to L. A. By Gotham Commission

BY HENRY L. FARRELL  
(United Press Staff Correspondent)  
NEW YORK, March 5.—After failing to agree on the proper course to follow in deciding the next opponent for Jack Dempsey in a world's heavyweight championship fight, the New York Boxing commission will put it up to the champion to make his choice of the challenges filed by Tom Gibbons and Harry Wills, it was learned today.

The two challenges, it is understood, will be forwarded in copy to Dempsey and the commission will respectfully ask him to choose his opponent and notify the commission when he will be ready to go and where.

"If Dempsey should happen to choose Gibbons, I know there will be a howl from Wills," Eddie Kane, manager of Gibbons, said today. "But here's what we'll do. We'll agree to fight Wills before the date set for the Dempsey fight and if Wills beats Gibbons, Dempsey will have to fight him."

Kane received a telegram last night from A. E. Santwair, Los Angeles promoter, who has been trying to arrange a Dempsey-Gibbons bout. Kane told him recently that he would sign as soon as he got Dempsey's signature. Santwair wired him that Dempsey said he will not be able to get into shape to defend his title until September.

Santwair wants to stage a Gibbons-Tunney fight in Los Angeles and Kane wired him that he would accept if there is enough money in it.

"MONEY TALKS" DECLARES CHAMP ABOUT BOUTS  
LOS ANGELES, March 5.—The challenger who rates highest in box-office value will get first chance at the heavyweight boxing championship, according to Jack Dempsey.

Practically all contenders for Dempsey's crown look alike to the titleholder, and that goes for either Harry Wills or Tommy Gibbons.

"The fighter who can bring me the most money gets first crack at the title," Dempsey declared in an interview. "If Harry Wills offers me more money for a match than Tommy Gibbons he gets it. The same goes for Tommy Gibbons or any other fighter."

The champion said there would be no choice if the New York Boxing commission asked him to decide between Wills and Gibbons for his title-defending battle.

"Either Wills or Gibbons would make a popular match and draw the dough," he said. "I'd like a fight with either one of them, or both."

"But the promoter who lays his money on the table first for a match with either one of these boys gets the contract."

Dempsey has already started training for his next bout. He draws an immense throng every afternoon to his newly opened gymnasium here where he takes his workouts in public.

The champion denied reports from the east that he would not be ready to risk his title before September.

"It might take me that long to get into shape, but when they produce the dough it'll be different," he said. "Then the promoters start talking business it won't take me long to work into condition."

START DOUBLE PLAYS  
Smith of the St. Louis Cardinals; Cobb, Detroit, and Hooper, White Sox, led all league outfielders in 1924. Each took part in eight two-ply figure in the National league and four in the American.

## Dartmouth Grid Captain Injured

NEW YORK, March 5.—Eddie ("Mickey") Dooley, captain-elect of the 1925 Dartmouth football team and all-Eastern quarterback last year, is through with football season and may be crippled for life. Dooley injured his spine in a fall from a horse after the close of the football season.

## Gibbons Accepts March 17 Ring Go

NEW YORK, March 5.—Tom Gibbons, aspirant for Jack Dempsey's crown, has accepted terms for a bout with Mike Conroy, sensational heavyweight, to be held in St. Paul, Gibbons' home town, March 17, according to an announcement made this afternoon by Eddie Kane, Gibbons' manager.

## Terry Holdouts For More Money Before Signing

SARASOTA, Fla., March 5.—Bill Terry, Giant first baseman, let it be known soon after his arrival at the New York training camp today that he is a holdout. He said he was not satisfied with the terms offered him and would not sign a contract.

George Kelly, McGraw's first baseman, second baseman and center fielder, has not reported and word was received that he is also kicking about the salary offered him on the new contract and will not sign. Frank Frisch, captain of the team, hasn't signed.

## Bowling News

ROBERTSON, CASEYS BREAK EVEN IN SERIES  
After losing the first two games by narrow margins, the Robertson Electric company bowling squad came back in the last game and earned a 2 to 2 break with the Knights of Columbus in last night's Winter league contest at the Broadway Academy. The winners hit the woods for 284 pins. Ed Holmes was best series of 606. Bob Fernandez's game of 223 was high. A large crowd watched the match.

The scores:

Robertson Electric Co.	Knights of Columbus
Reyer	187
Holmes	197
Sinsley	165
Robertson	172
Mull	178
Totals	905 911 868 2684

## DALES VICTORIOUS OVER LEAGUE LEADERS

The Dale Hardware company's team materially reduced the lead of the Woods Realty company in last night's industrial league series at the A. and B. alleys when Scotty Torrence wrecked the maples for a 745 count and had premier game of 227. The scores:

Woods Realty Co.	Dale Hardware Co.
McConnell	179
Woods	138
Dawson	199
Totals	516 475 578 458 2027

## TRAINING TABS

LAKELAND, Fla.—Tris Speaker has taken over personally the training of his pitching aspirants. He caught all ten of the Indian hurlers here yesterday.

ORLANDO, Fla.—The work of Pete Donohue on the mound yesterday pleased Manager Jack Hendricks. Pete used his fast ball and change of pace and the hitters could do nothing with him.

AUGUSTA, Ga.—Ty Cobb spent his first day in uniform yesterday directing play of the Tigers from the field. The only fight for a position seems to be at short, where Tavenner, Texas league recruit, is pushing Rigley for a regular job.

STOCKTON, Cal.—To relieve the tedium of training drill, Branch Rickey has inaugurated several frolic stunts for his squad of Cardinals.

TARPON SPRINGS, Ala.—With a full crew on hand, the Browns have settled down to hard work.

CATALINA ISLAND—Heavy work is now the program of the Cubs. Manager Killefer drove his men hard yesterday and ordered a stiff workout for today.

SHREVEPORT, La.—Eight players are fighting it out for the short stop job with the White Sox. John Butler, who played with Wichita last year, is making an impressive showing and indications are that he will give Bill Barrett, regular shortstop, his hardest fight.

CLEARWATER, Fla.—"All the attention and fame he got last season has gone to his head. I am sorry for him but can't help him," Wilbert Robinson, manager of the Brooklyn Robins, said today in commenting on the case of Dazzy Vance. The winner of the National league prize for the most valuable player has refused to sign a three year \$50,000 contract unless the team day clause is stricken out. Charles Ebbets, president of the club, said he had no authority to remove the clause, as it is a baseball rule.

## The Referee

Has any catcher thrown out three men in one inning who were trying to steal?—M. N. H.

Yes, Leslie Nunamaker, last with the Cleveland club of the American League, then with the New York Yankees, turned the trick in the second inning of a game with Detroit, Aug. 3, 1914.

What is the closest any catcher has ever come to Ray Schaik's record for continuous performance?—D. F. G.

Schaik, during his career, has caught 100 or more games in 11 seasons. George Gibson, while a member of the Pittsburgh club, did such a stunt for six seasons.

What are the greatest number of chances ever accepted by a first baseman?—D. C. B.

No first sacker in either major league has ever made more than 22 puts, five have equaled that figure in the National league and four in the American.

START DOUBLE PLAYS  
Smith of the St. Louis Cardinals; Cobb, Detroit, and Hooper, White Sox, led all league outfielders in 1924. Each took part in eight two-ply figure in the National league and four in the American.

## SHORT SPORTS

CAMBRIDGE, Mass.—After his resignation had been withdrawn, Bob Fisher, head coach in football at Harvard for six years, was reappointed by the football committee.

NEW YORK — Paavo Nurmi, world's greatest runner, set two new records here last night at the annual games of the 106th infantry. He ran 1.18 miles in 4:55.45 and continued to 2000 yards in 4:59.35. He held the previous records for both distances. Willie Ritola failed by a second to equal his record of 11:45 for 2.12 miles. Nurmi left last night for Hamilton, Ont.

MEMPHIS, Tenn.—Joe Stecher, former world's champion and Jimmy London, Greek, wrestled two hours to a draw here last night.

CLEVELAND—Wayne ("Big") Munn, champion heavyweight wrestler, will grapple with Wallace Dugid, former Canadian mounted policeman, and ex-plumber, in a bout here Friday night.

## Pick Georgetown To Win Big Meet

NEW YORK, March 5.—Georgetown University with a well balanced team and two championship relay combinations has been picked by the critics to win the annual indoor track and field championships here Saturday night.

Tomorrow (Friday) don't forget the all-day meeting at the Church of the Nazarene, corner of Fifth and Barton streets. Hear the lady evangelist tonight.

## Everything Here for March Planting

Just now our store is ready to supply you with Flowers, Shrubbery, Potted Plants and everything you should plant this month. Every plant in perfect condition and fairly priced. Come in.

Large shipment of fine Goldfish has just arrived.

# News From Orange County

## NEW PARK IS CONSIDERED BY H. B. BOOSTERS

HUNTINGTON BEACH, March 5.—A booster campaign to secure for this city one of the best recreational parks of any coast city is being inaugurated by a number of local real estate dealers and sportsmen. It was announced today by H. S. Hancock, former secretary of the realty board. The matter was brought to the attention of the board of city trustees at a recent meeting.

Hancock, in a plan outlined before the chamber of commerce, declared that the block owned by the city at Magnolia and Main streets and between Sixth and Main, could be made into an excellent park. He suggested installation of tennis courts, croquet courts, quoits, hand-ball courts and showers.

Several members of the chamber of commerce spoke in commendation of the plan. Suggestions were made as to the formation of an amateur athletic league in this city.

"A park of this sort will keep a large number of our people at home where they belong; it will give them a chance for healthful exercise, and will be the means of stopping a lot of this gossip, and talk about our neighbors," Hancock declared before the chamber of commerce. He said that the people here do not have enough recreational advantages. Richard Drenth, city councilman, declared that he believed the measure would receive full attention from the trustees when the disposition of the land mentioned was made.

Members of the chamber of commerce committee are Joseph Vavra, F. L. Slusher and E. M. Billings.

## ORANGE COUNCIL WILL AID LEGION

ORANGE, March 5.—Providing the other county cities do likewise, the Orange city council will appropriate \$500 a year toward the Orange County Armistice Day parade, it was decided at the council meeting Tuesday, when the proposal was discussed with Louis Frostefer, local legion commander, and member of the Orange County Legion council.

Frostefer, representing the latter organization, appeared before the council with an appeal for financial aid for the Armistice parade which will be held at Anaheim this year. He declared that other legion posts in the county would appear before their respective city councils on the same mission.

The local board agreed to enter a "gentlemen's agreement" with the other county cities to appropriate \$500 annually to the Armistice parade on the understanding that the celebration would rotate to a different city each year.

## Two Permits to Build Are Issued

HUNTINGTON BEACH, March 5.—Two building permits for small amounts were issued by the building inspector here during the first four days of March.

Mrs. Joseph Washburn, 866 Alameda avenue, was issued a permit to repair the porch at her home. Cost of the improvement was estimated at \$15.

Peter Ausing, 2101 Delaware avenue, has started work on additions to his home which will cost about \$200.

## La Habra Wants To Connect With Fullerton Sewer

FULLERTON, March 5.—At the regular meeting of the city trustees Tuesday night, an application to connect with the Fullerton outfall sewer system was received from the city of La Habra.

L. Lindauer headed the La Habra committee that presented the petition in which it was proposed that La Habra connect with the Fullerton line at the intersection of West Commonwealth and Magnolia avenues. In this city, and that Fullerton stand 35 per cent of the cost and La Habra the remaining 65 per cent.

On the recommendation of City Manager W. C. Record, action on the application was postponed until such time as the La Habra board and the Fullerton sewer committee could meet and discuss plans and specifications thoroughly.

## BOND ISSUE TO ERECT PIER IS H. B. PROPOSAL

HUNTINGTON BEACH, March 5.—A new pier proposition, which probably will be placed before the people of Huntington Beach in the form of a bond issue, if the million dollar horsehoe pier fails to materialize, was discussed here today. E. B. Stevens is in charge of the plans. Private interests have had under consideration construction of a horsehoe pier.

The proposition, as outlined by Stevens, will include extension of 300 feet on the end of the present pier, which would place the pier in 16 feet of water. It is his idea to then construct a breakwater 500 feet long across the end of the pier, with wings, each 250 feet in length, on either side of the breakwater.

According to Stevens, this would provide a calm place for boats during any storm and would furnish excellent bathing. Dangerous currents would be eliminated, and fishing would be greatly improved.

## Tide Gate Will Be Installed at Mouth of River

TALBERT, March 5.—Meetings of both the Talbert Drainage district and the Newbert Protection district were held Tuesday afternoon and were given over to business matters which had come up during the month. Retirement of the old directors and advent of the new chosen at election, comprised the main feature of the meetings.

New directors on the boards include Justine Stuart and William Leinhardt on the Newbert district and John Pope on the Talbert drainage district. Each takes office for four years.

Discussion of the proposed new tide gate, which the Talbert district will install, was held by members of that board. Several locations have been proposed for the gate, with cost ranging from \$20,000 down to \$2,500, and the last estimate, which will locate the gate at the mouth of the Santa Ana river has now been fully decided upon.

Necessity for the proposed improvement was made by the backing up of the ocean tide water through the canals on to property adjoining. Two suits as a result are pending to the amount of \$27,000 brought by the Pacific Land company and the Orphans' home. The latter suit has been pending since 1914, the year of the overflow, when the home was under water. The trial is set for May.

The two suits were brought jointly against the Talbert Protection district and the Newbert Protection district. Another matter of importance at the Talbert meeting was the paying of the remainder of district bond issue.

## Nominate Officers For Rotary Club

FULLERTON, March 5.—Nominations of officers of the local Rotary club for the coming year were made yesterday at the regular weekly luncheon meeting of the organization.

## CHANGES MIND AND VOTES TO PAVE AVENUE

HUNTINGTON BEACH, March 5.—Reversing his opinion of two days ago when he refused to second a motion for the paving of Palm avenue, Charles G. Boster, member of the city council, yesterday afternoon voted in favor of paving the avenue.

Monday evening when only three members of the council were present, Boster refused to second the proposition or vote in favor of it. A question of light posts was settled. A special meeting was called for yesterday afternoon. Bids will be opened for the paving of Palm avenue March 16.

City Attorney L. W. Blodgett will start proceedings immediately to declare the streets running through the Methodist camp ground to be public highways. This will open Twelfth street and Magnolia avenue, which probably will be paved in the near future.

## Club at Fullerton Receives Charter

FULLERTON, March 5.—The reorganized Fullerton club, which is to be known hereafter as the Business Men's club, yesterday received its new charter from Secretary of State Jordan.

Reorganization was effected in order to alter the legal status of the club from a copartnership to a corporation. The following application for charter membership were received yesterday: W. H. Radford, O. W. Hines, B. H. Whitaker, D. R. Newton, and J. W. Whittinghill. E. J. Clark, secretary of the Fullerton club, is to be retained in that capacity in the new organization.

## RETURNS FROM MEXICO

HUNTINGTON BEACH, March 5.—E. H. Cookingham, local telephone exchange owner and manager, returned yesterday from an extended business trip in Mexico. He has been investigating conditions in that country with a view to investing there. Cookingham made the trip with the Long Beach Chamber of Commerce expedition.

## Garden Grove

GARDEN GROVE, March 5.—Mr. and Mrs. Vernon McDonald entertained at dinner recently, the affair being in honor of the birthday anniversaries of William McDonald and Soule Oertley. The table was artistically decorated, the St. Patrick motif being carried out. Covers were laid for Mr. and Mrs. Vernon McDonald, Mr. and Mrs. William McDonald, and family, Mr. and Mrs. Conrad Oertley and Mr. and Mrs. G. G. Allen and family.

Mr. and Mrs. J. L. Abbott of Los Angeles visited Sunday at the home of the latter's parents, Mr. and Mrs. J. O. Arley.

Mr. and Mrs. Alvin Coates of Chicago are guests at the home of the former's brother, R. L. Coates.

Mr. and Mrs. Charles Warner and two daughters of Los Angeles were Sunday guests of Mr. and Mrs. R. L. Coates.

Home Economics club was entertained at the home of Mrs. Harold Woodhouse Tuesday afternoon. Following a pleasant afternoon devoted to sewing and social chat, the hostess served refreshments. Present were Mrs. Wayne Holt, Mrs. Frank Monroe, Mrs. Rollin Rosset, Mrs. Irvine German, Mrs. P. F. Gallienne, Mrs. C. Z. Wasson, Mrs. Ray Christensen, Mrs. Walter Duncan, Mrs. Cecil Hall, Mrs. D. C. Hogue, Mrs. Homer Nichols, Mrs. Fred Schroeder, Mrs. Ralph Schawantes, Mrs. Wesley Smith, Mrs. Frank Winters, Mrs. Elmer Hall and the hostess.

Sunday dinner guests at the home of Mrs. Susan Chaffee were Dr. and Mrs. Burns Chaffee of Long Beach and Mrs. S. S. Helm and daughter, Marian, of Fullerton.

Mrs. H. Birchfield and daughter, Mary, Mrs. Reeder and son of Taft were week-end guests at the home of Mr. and Mrs. Ralph Chaffee.

## Dismiss Booze Case; Witness Fails to Appear

HUNTINGTON BEACH, March 5.—Charges of possession of intoxicating liquor against J. C. Teater, local taxicab driver, were dismissed yesterday after complaining witnesses failed to appear to testify against him.

Mrs. Beverly Ward was declared to have been one of the main witnesses in the case. She was one of several special investigators of the Anti-Saloon league who operated in Orange county last fall.

City Recorder Harry Stewart dismissed the case on motion of City Attorney L. W. Blodgett. The case was postponed from January 28 by mutual agreement, at which time the case was set for trial yesterday.

## SCHOOL LANE ORDINANCE TO BE ENFORCED

ORANGE, March 5.—With the ordinance creating crosswalks at a principal school intersections due to become a law Friday, Motor Office Lauren E. Hurd, acting on instructions from City Marshal M. S. Jamison, has announced that a rigid campaign will be instituted to enforce the new statute.

The ordinance provides that all vehicles come to a stop when pedestrians are in the yellow lanes. The vehicles must remain at a standstill until the pedestrian has safely crossed the street.

The lanes have been painted on the streets. They are located on West Chapman avenue, South Olive street, North Glassell street, Palm street, Cambridge street and at other points where traffic endangers school children.

While the ordinance is primarily intended to reduce traffic hazards for the school children, it is also designed to serve other pedestrians. It was declared by Motor Officer Hurd, who stated that walkers crossing at points other than the crosswalks are doing so at their own risk.

An emergency ordinance, effective at once, was adopted by the city council Tuesday prohibiting fish and meat markets and produce and vegetable stands from locating outside the fire district.

The ordinance does not affect establishments already located in the residential district, but prevents their removal to any other location except in the fire district, better described as the business section.

A penalty as high as \$300 fine, 90 days imprisonment or both are provided for violation of the statute. Each day that the violation occurs is deemed a separate offense, punishable accordingly, the ordinance provides.

## Rev. G. W. Glover Dies at Orange

ORANGE, March 5.—Funeral service for the Rev. G. W. Glover, who died Wednesday in his home, 306 East Maple avenue, Orange, will be held Friday at 10 a. m. from the Gillogly and Smith funeral parlors in Orange. The Rev. Mr. Glover was a brother of Mrs. S. L. Brisindine, Dr. J. D. Glover, the Rev. A. U. Glover and Miss Emma Glover.

## LA HABRA RANCH SELLS

FULLERTON, March 5.—"The Cross Roads," well-known Orange county ranch, located on the outskirts of La Habra, was sold Tuesday by A. J. Sweeney to Charles Raglio of Chicago, for \$45,000. The ranch consists of five acres of walnuts and five acres of oranges. The new owner plans to establish his home on the property.

## MACCABEES TO INSTALL

HUNTINGTON BEACH, March 5.—Plans were laid here today for public installation of officers of the Maccabees lodge. The affair will be held at the Odd Fellows' hall tonight. This is the first public ceremony to be staged by the Maccabees here.

## H. B. RECORDS NO DEATH IN ENTIRE MONTH

HUNTINGTON BEACH, March 5.—For the first time in several years an entire month passed in this city with no deaths. During February, not one death was reported in this township to the recorder of vital statistics.

Deaths did occur, however, during the last few days of January, and one death was reported for March.

Mrs. Christina Houghlum, 72, wife of Jens Houghlum, of this city passed away at her home, 318 Eleventh street, Tuesday. Funeral services were held yesterday from the Methodist church, with the Rev. S. J. Rogers officiating. Interment was in Huntington Beach cemetery.

Record Fewer Births  
Births here for February, although exceeding those of January, continued to fall below the figures shown by the books of the recorder of vital statistics for the corresponding month last year. Eight births were reported here during the month. Five were reported in January. Last year, births in January and February totaled 12 for each month.

Births for February show girls still in the lead. Five girls were born during the month as against four boys. In January, three girls and two boys were born. Names in February show more variety than in the preceding month.

February Babies  
Following is the list of February births: Morris Edwin Leggett, to Mr. and Mrs. R. L. Leggett; Floyd Earl Darden, to Mr. and Mrs. P. F. Darden; Barbara Lucille Lane, to Mr. and Mrs. E. L. Lane; Ednice Mary McIntosh, to Mr. and Mrs. J. W. McIntosh; Lowell Marvin Gates, to Mr. and Mrs. L. M. Gates; Virginia Mae Woodhouse, to Mr. and Mrs. E. Woodhouse; a daughter to Mr. and Mrs. R. L. Brochert; and Jean Ramsey Leyler, to W. G. Leyler.

## 200 Rebekahs at District Meeting

FULLERTON, March 5.—More than 200 Rebekahs attended the Rebekah district meeting held yesterday in the I. O. O. F. hall. Luncheon was served at the Elbel clubhouse, and a special session of the Rebekah assembly was held at 4 o'clock in the afternoon.

## A COUGH REMEDY WITHOUT OPIATES

Many cough preparations contain some one or more harmful drugs which are added to take the place of opiates. None of these narcotic substitutes have ever been used in FOLEY'S HONEY AND TAR COMPOUND. The name of every ingredient is plainly printed on every carton. You know what you are taking when you take Foley's. It clings to the throat. Good for old and young. You have a cough, why not try it? Refuse substitutes. Sold everywhere.—Adv.

**HEARING RESTORED  
OFTEN IN 24 HOURS**

Amazing Results Secured in One Day by Use of Virex Formerly Known as Rattle Snake Oil

Deafness and Head Noises need not be dreaded any longer since the discovery of a widely known physician. Now it is possible for some of the most obstinate cases of deafness to be relieved in a day's time by the application of a prescription formerly known as Rattle Snake Oil. This treatment is meeting with wide success all over the country.

Mr. D. M. Lopez, a Pennsylvania man, says: "I used the treatment at night before retiring. The following morning I could hear the tickings of the alarm clock that I was unable to hear before. Now my hearing is restored perfectly after many years of deafness."

Mr. Ben Jackson, who lives in Indiana, says, "Before I used Virex I could hear nothing. After ten days I could hear my watch tick."

Angeline Johnson, a Mississippi resident had been stone deaf for eighteen years. She says, "Virex has stopped my head noises and I can hear the train whistle 2 1/2 miles away."

Roy Fisher, Iowa man, says, "I hadn't heard a watch tick for eleven years—now I can hear it on the table and hear it plainly."

Mr. W. A. Lumpkin, of Oklahoma, says, "After being deaf 33 years, I used your treatment only a few days and hear fairly well."

Mr. Anthony Chapman, of Michigan, says, "The terrible head noises have stopped entirely and my hearing is practically back to normal."

Deaf Baby Now Hears. Mrs. Ola Valentine, of Arkansas, says, "My little boy, now 5 years old, had been deaf since about 4 months of age. Now he hears very well and is learning to talk."

Mr. Mather Polley, says, "My young son, deaf for years, has used Virex for only three days and he hears almost as well as ever before."

Such amazing reports come from all over this country and Canada. The prescription which is known as Virex, is easily used at home and seems to work like magic in its rapidity on people of all ages.

So confident are we that Virex will restore your hearing quickly, and to introduce this remarkable treatment to a million more sufferers, we will send a large \$2.00 treatment for only \$1.00 on ten days' free trial. If the results are not satisfactory the treatment costs nothing.

Send no money—just your name and address to the Dale Laboratories, 1005 Gateway Station, Kansas City, Mo., and the treatment will be mailed at once. Use it according to the simple directions. If at the end of 10 days your hearing is not relieved, your head noises gone entirely, just send it back and your money will be refunded without question. This offer is fully guaranteed, so write today and give this wonderful compound a trial.—Adv.

## RHEUMATISM Neuritis, Lumbago, Sciatica

Plasma, the New Penetrating Mineral Cream, Drives Away Pain at Once

Pain is caused by clogged blood vessels, obstructing the flow like a dam in a stream. Clear away the obstruction and the pain goes away.

Plasma, the new soothing mineral cream, does this. It produces wonderful results in all cases of:

Rheumatism Varicose Veins  
Neuritis Chest Colds  
Sciatica Boils, Pimples  
Lumbago Burns, Scalds

Plasma is a natural remedy, to be rubbed in and applied as a poultice. Remarkable penetrating properties due to colloidal activity enable it to open up the pores and penetrate quickly to the seat of the trouble. It draws out the poisonous matter that causes the pain and allows a free flow of fresh, new blood.

Long-time sufferers from the most obstinate cases where persistent pain meant sleepless nights and lowering of vitality report the most astonishing results from this new remedy. We have never known Plasma to fail to bring relief. 50c, 75c, \$1.25 and \$2.00 jars. Money back if not satisfied.

Also Plasma Mineral Water Concentrate \$1.25 per Bottle or \$5 per Case of Six.

## 40 REALTY BOARDS HOLDING CLASSES

Real estate education among the California realty boards has this year brought more than 2,000 brokers and salesmen under ethical influence of standard methods of handling real property, Jack Wallace, educational chairman of the Santa Ana Board of Realtors, said today.

Nearly 40 realty boards are taking the real estate courses of the association under auspices of the University of Southern California, Wallace said. Besides the state courses, there are additional classes with hundreds of members in the larger cities of the state.

"By education of the realtor, we are building the new profession of today," Wallace said. "Sixty per cent of the wealth of the United States is invested in real estate. A large portion of this wealth changes ownership yearly and thus furnishes the material for one of the major businesses of the country, real estate brokerage. Yet, notwithstanding the fact that so much of our property is real property, those who engage in the business of real estate brokerage do so in nearly every case without having had the necessary training to fit them for their work."

"The situation is not unique. The lawyer or the doctor once got his training in the office of a regular practitioner; then schools were established to facilitate the training and to make it more uniform. Just so, courses of study are being established now to train men and women for the practice of real estate brokerage."

## Leonard Denies He'll Box Walker

NEW YORK, March 5.—Emphatic denial that his retirement was a publicity scheme and of reports that he would return to the ring this summer for a \$150,000 bout with Mickey Walker, the welterweight champion, was voiced today by Benny Leonard, retired lightweight title holder.

"When I announced my retirement I meant it and it was final," he said. "I am through with the ring and that goes. I haven't been offered any \$150,000 purse for any fight and I wouldn't consider any such offer if it had been made."

## Capital Letter

By HARRY B. HUNT  
WASHINGTON, March 5.—Congress is always ready to respond any mention of "pull in politics."

Congressional intercession in behalf of certain causes or individuals, it is always insisted, is merely to get attention to the "merits" of the case.

Any "pull" or "influence," in the sense of striving to land special favors for special persons or interests moves members to hot and indignant denial.

And yet to the man outside looking in, there always seems to be a great mass of measures more or less tinged by the personal interests of members or of certain of their constituents.

The bias, if bias there be in these cases, may be entirely subconscious.

But to outsiders, the effect of personal favor in the advancing of many measures makes the opinion inescapable that "pull" rather than merit decides many matters.

A case in point is that just disclosed in a report by the Senate committee on pensions.

Because of the clear-cut factors in this case, it illustrates the situation more effectively than could pages of exposition.

Two applications came before the committee for increases in pensions.

Mrs. Edith L. Quick, St. Louis, Mo., widow of a veteran of the Spanish-American and World wars, sought an increase from \$12 to \$50 a month.

George Curry, El Paso, Tex., veteran of the Spanish-American war, sought an increase of from \$12 to \$50 a month.

The committee recommended the increase sought by Mrs. Quick be denied. It recommended the increase asked by Curry be granted.

"Mrs. Quick," the report stated, "is now drawing compensation at the rate of \$30 per month as a World War widow, and is only 44 years old."

Of Curry, the report said: "He is now physically unable to earn his living by manual labor."

On the face of the report, the recommendations seem entirely fair. The report says Mrs. Quick "is only 44 years old," suggesting she should be able to supplement her pension by personal employment.

It does not state she suffers from an ailment which prevents her from working and that she has no child or other relative to contribute to her support.

The report says of Curry that "He is now physically unable to earn his living by manual labor."

It does not state that Curry is now on the government pay roll at \$5000 a year as the United States commissioner on the Mexican boundary commission.

Curry never has had to earn his living by manual labor. But he has held many political jobs, including that of high sheriff of Manila, governor of New Mexico and member of congress from that state.

Curry at one time served as private secretary to Senator Bursum of New Mexico. Bursum obtained for Curry his appointment as boundary commissioner.

And Bursum is now chairman of the Senate pension committee.

Eye Strain? This Helps  
For strained eyes try simple camphor, hydrastis, witchhazel, etc., as mixed in Lavoptik eye wash. One small bottle helps any case weak, strained or sore eyes. It will surprise you. Aluminum eye cup free. C. S. Kelley, druggist, 101 E. 4th St.—Adv.

## LITERALLY "BREAK ICE"

PULLING FOR HARVARD—Candidates for the Crimson crew had to break the ice on the Charles river to make this first appearance in their barge for spring practice.

## OUR— NEIGHBORS

SAN BERNARDINO—Drillers at work on a well in Lytle creek south of the San Bernardino city reservoir, have encountered the trunk of a tree two feet in diameter at a depth of 65 feet. The great tree, the largest ever found in well drilling operations in San Bernardino valley, is believed to have been carried by some terrific storm during the ages when the basin was being filled with debris from the mountains. When it was discovered the tree was of such size as to make it impossible for the casing to pass it, and a pit was dug and workman was lowered to chop the log. Many pieces of it were brought to the surface. The well is a short distance from the Riverside-Highland well, where the limb of a tree was encountered at 738 feet.

CALEXICO—Final figures submitted by cotton ginners in Imperial valley indicate a total of approximately 95,000 bales of cotton ginned this season. Of this total, 70,000 bales were grown in Lower California and the remain-

ing 25,000 bales were produced in Imperial county. The value of the Imperial county crop is given at \$4,000,000, while that in Lower California was worth \$3,000,000. The yield on the smaller acreages farmed in this county was declared to have been higher than on the larger plantations in Mexico.

SOUTH PASADENA—Acquisition of six acres of land owned by Mrs. Florence Collins Porter, on which a new city park may be constructed, was made possible when a group of 15 prominent South Pasadena men purchased the land for \$21,700 and will turn it over to the city at any time within a period of a year.

ONTARIO—Paving of Sultana avenue with asphaltic concrete between A and Fourth streets and State and Dessau streets, a distance of a mile and three-quarters, at an approximate cost of \$50,000, was assured when the city council adopted a resolution ordering the work done. The resolution also calls for construction of curbs where not already in.

COVINA—Covina, West Covina, Glendora, Azusa, San Dimas, Baldwin Park and Puente should join in a sewer district and vote to participate in the great county sewer system, representatives of

the city governments and chambers of commerce of these cities decided at a meeting here. Another meeting will be conducted here March 10, at which further steps toward formation of a sewer district and calling of an election to vote bonds, will be taken.

POMONA—Under a cloudless sky, 2000 people from widely scattered sections of Southern California joined with officers of the David and Margaret home for children and national officers of the Women's Home Missionary society in the laying of the cornerstone of the new \$150,000 home building being erected on a site donated by Henry L. Kuns near Bonita high school on the La Verne-San Dimas boulevard.

SAN BERNARDINO—E. Q. Sullivan, district engineer of the state highway commission appeared before the board of supervisors and requested that the supervisors secure rights-of-way for the portion of the Crest road lying between the Big Bear valley dam and Fawn-skin preparatory to its improvement by the highway commission. The road is considered the "bottle-neck entrance" to the entire highway system in the Big Bear valley shore of the lake for three and a half miles and is very heavily traveled. This road was taken

over from the county by the highway commission last year. Grading, widening and curve protection are included in the improvement program.

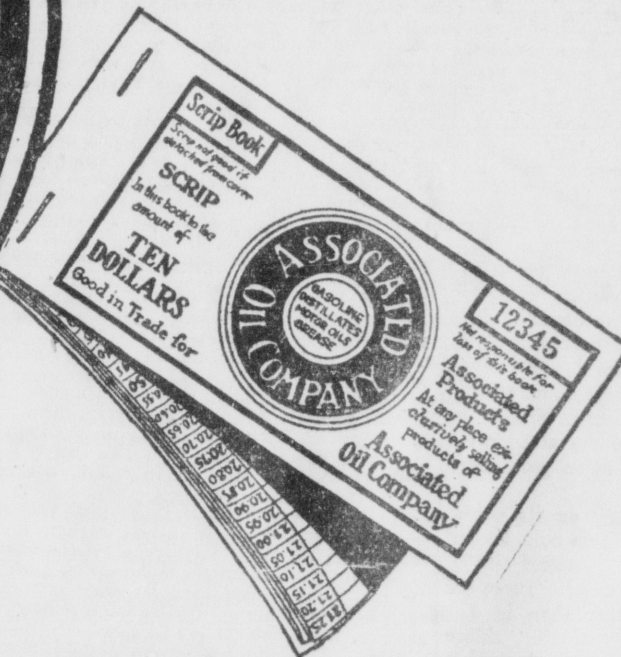

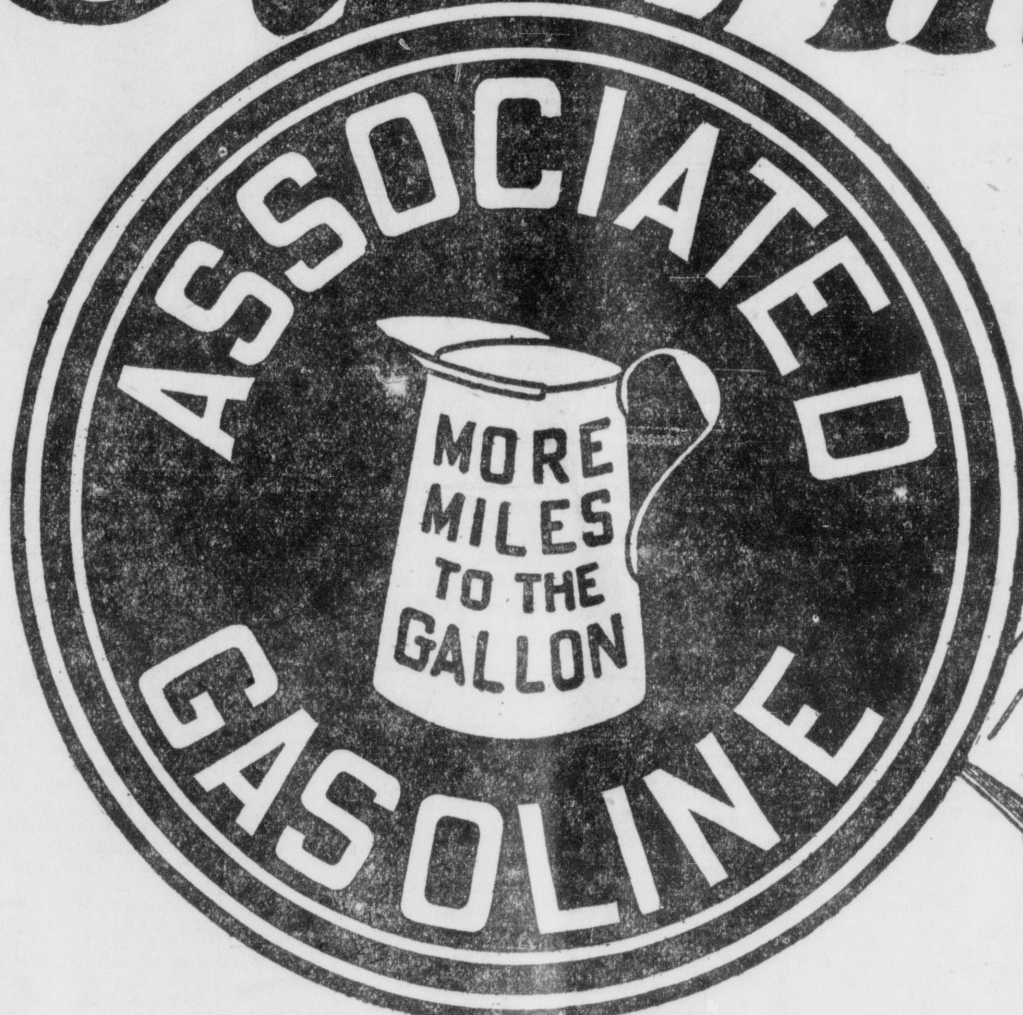

## Unsightly Hair Rid Roots and All Or No Cost!

A wonderful new Oriental discovery, safely, easily and quickly removes all superfluous hair, from face, arms and legs, roots and all. Karma, as this discovery is called, is made of the finest soothing balsams. When applied, it penetrates towards the hair roots, loosens them and gently eases out the hairs. No muss. No odor. No growing back of the hair stronger than ever. And it leaves the skin clear, healthy and soft as velvet. Karma is sold by all good dealers such as: Givens-Cannon Pharmacy, Haddon-Jean Drug Co., Parsons' Drug Store, White Cross Drug Co.—Adv.

A little eye that looks on you from velvet depths afar.  
A breeze that whispers softly past; if conscience, like a flame,  
Wakes in your breast, pray God you need not bow your head in shame.  
—Reed Heustis.

## THE JUNIOR COLLEGES

With educators of Orange county committed to a plan for the consolidation of the two junior college districts, Fullerton and Santa Ana, into one district, a report just made by Will C. Wood, state superintendent of schools, is full of interest and significance. This report is likely to be the last made by Wood in California for Pennsylvania has offered him a salary of \$12,000 a year. California is paying him \$5,000. His administrative ability brought him the offer from Pennsylvania.

There are seven junior colleges in the state and seven teachers colleges, which, in their locations, serve the purposes of junior colleges.

A summary of statistics concerning the junior colleges follows:

District	Teachers	Students	Average Salary	Average Salary
Attendance	Employed	Enrolled	Per Month	Per Year
Chaffey	119	168	\$3,125	\$37,500
Fullerton	119	18	2,810	2,234
Modesto	198	18	2,554	2,400
Riverside	152	27	2,066	2,200
Sacramento	232	25	2,718	2,656
San Mateo	95	20		
Santa Ana	194	17	2,500	2,656

This includes both full time and part time teachers, and in all the districts except Chaffey and Fullerton, a number of part time teachers are employed, presumably teachers in the high schools. These salaries listed are for full time teachers only, no report being made of the cost of part time teachers. In San Mateo, all the teachers are on a part time basis. In Chaffey and Fullerton, all the teachers are on full time, and in other districts the following are employed on full time: Modesto, 15; Riverside, 9; Sacramento, 16; Santa Ana, 4.

The regular enrollment at the state teachers colleges is: Chico, 415; Fresno, 952; Humboldt, 161; San Diego, 550; San Francisco, 804; San Jose, 1090; Santa Barbara, 378. In addition to the regular enrollment those institutions have extra hour class enrollment as follows: Chico, 101; Fresno, 638; San Diego, 278; San Francisco, 467; San Jose, 167; Santa Barbara, 24.

It is impossible to determine from the figures for the teachers colleges how many are attending these colleges for the purpose of training themselves for teachers and how many are attending with the end in view of getting a part of their university education close at home.

The figures for the junior colleges and the teachers colleges, however, indicate the fact that the junior college idea is here to stay. The tremendous enrollment at the state university makes it advisable, from the standpoint of state educational authorities, to develop the junior colleges. The advantages locally are well recognized; the student can live at home and get two years of college work at far less expense than would be possible were he to go away to school, and parents are enabled to keep in close touch with the daily life of their children.

## THE NEW SOUTH

The amazing progress of the southern states in recent years has not been realized elsewhere in the country. It is an almost incredible account that is given by B. C. Forbes, writer on business and finance, after an observant tour of that section. The revival shows not merely in volume of business done, growth of industry, size of bank clearings, rise in real estate values, extent of crops, etc., but in the attitude toward things of less tangible and more permanent value.

Thus the South is spending today on its public schools almost twice as much as the whole United States spent in 1900. Almost every second city in the South now has a college or university. There are more churches throughout the South than in any other section, with 285 in Atlanta alone. More money is being spent on hospitals than anywhere else. Fraternal organizations are flourishing. The South leads the country in building fine hotels. It spends more for opera than any other section excepting those centering in New York and Chicago. Art galleries are springing up. Nowhere else is there such a blossoming of beautiful public parks. Country clubhouses and golf courses are appearing on all sides.

"By the end of the first half of this century," says Mr. Forbes, "the South promises to attain a position of cultural leadership such as it enjoyed in the first half of the last century and earlier."

The East, Middle West and Far West all will do well to keep their eye on the new South, and look to their own laurels.

## NO DIVORCE IN IRELAND

The Irish Free State is undertaking to solve the divorce evil by outlawing it. A bill passed by the lower house of the Dublin Parliament declares marriage an indissoluble tie. If it is adopted by the Senate, legal divorce will become impossible. Separation is permitted, under certain conditions, but no right to remarriage.

Yet there remains a way out—for men. Southern Irishmen desiring divorce may, if they have the money, take up a residence in Ulster and, after fulfilling the local requirements, obtain a full divorce there. Women are left helpless by the Irish law which forbids a wife to domicile herself anywhere but in her husband's home without the husband's consent.

Needless to say, such discrimination will be swept away in time. Irish women have equal voice. Generally speaking, too, they have an equal voice in the home. Such conditions will lead eventually to equal matrimonial rights.

## A LAMA IN LONDON

Seven Lamas from far-off Tibet have been enticed out into the world and are visiting London. They are seeing things new and strange to them. An interpreter is giving some of their impressions to the public. After watching a man working an electric drill on the streets, one of these Tibetan visitors is reported to have commented to this effect:

"The English are a very clever people. They are much cleverer than we are. But they do not use their arms enough. It would be much better for that man if he used his arms instead of holding that machine. The machines in England are wonderful, but

I think that if the English are not careful the machines will master them and make them do what they want."

There is much material for serious thought in the Lama's words. All of the modern conveniences, inventions, machines and new ways of doing things more quickly and easily and cheaply than ever before will fail to benefit mankind if human beings allow mechanical development to get too far ahead of moral, intellectual and spiritual development. It takes more than powerful machinery, clever mechanical devices and material wealth to keep a civilization alive and healthy.

## Orange Show Ends

San Bernardino Sun.

After Eleven days the brilliant spectacle of the Fifteenth National Orange Show is gone. It is now of the past, and we look into the future for other similar exhibitions, each one more gorgeous than the former, for that has been the history of the National Orange Show.

Probably more than a quarter of a million people saw the exposition, the fame of the citrus fruit industry was extended and knowledge of the manner in which San Bernardino does things worth while was widened.

The National Orange Show is an exposition worth the effort. It not only entertains and charms its thousands upon thousands of visitors, but it stimulates the commercial activity of all the cities and towns of this valley as far away as Riverside.

This was the first year in the new building and that even this great structure must be enlarged, either by adding to its length or constructing another unit alongside, is already apparent. Probably it will not be done this year, for the first duty of the exposition officials is to pay for the structure already built or at least materially reduce the bonded indebtedness against it.

Without a doubt the exposition was a financial success. Just how much money was netted will not be known until the expenses and receipts are audited. One heavy expense of the past will be eliminated beginning next year. It is that of the installation which each year in the past had to be entirely new, because of the necessity of removing the tents. The electric wiring and many other features will remain intact from one show to another.

The National Orange Show is managed by a group of public-spirited citizens, who were this year headed by B. L. Holmes, as president. These men, all of them men of substantial affairs, have devoted many weeks and even months of their time and energy to making the exposition. They serve without compensation, and they have the appreciation of the community, for they maintained the steady progress of the exposition, even under the handicap of the extensive damage in last year's storm.

San Bernardino appreciates the support tendered by not only its close neighbors but friends in other parts of the state. The exposition could not be a success without the co-operation of the citrus fruit producing communities of the entire state, and it would not be the great show that it is without the hearty support of the cities and towns of San Bernardino county.

## Diligence Would Clear Files

Sacramento Bee.

If bills, resolutions, constitutional amendments and other matters before the legislature could be cleared in the order of their importance or necessity, the work of that body could be much expedited, and few things of any consequence would remain on the files at the time for final adjournment.

Unfortunately, there appears to be no feasible way of accomplishing directly any such dispatch of business. But committees can do much to further that end by giving precedence, where they think it most deserved, in reporting bills back to the floor for discussion and action. And, as a matter of fact, this commonly is done. Many bills are "shelved," or die on committee files, without action.

Although in the first half of the divided session 1,172 bills were introduced in the assembly and 773 in the senate, making 1,945 in all, many of these are duplications, so the actual total is much less than that appears.

City managers have proven successful in many cities. Already there are many discussions of the feasibility of having county and even state managers. It means economy and better business methods when the right man can be secured.—Riverside Enterprise.

But, besides the bills, there are numerous proposed amendments to the constitution, and various resolutions on other matters also are pending.

Some of the proposed amendments, such as those for taxing all bonds, and likewise publicly owned utilities, are likely to excite much debate, and perhaps no little obstruction.

However, if the legislature should proceed diligently, in a businesslike way, to disposal of the work before it, all that is needful may be done within a comparatively short time.

## EDITORIAL SHORTS

Students of the University of California have gone on record for law enforcement, without regard to what the law may be but particularly do they commit themselves to support the constitution of the United States and all of its amendments. The action is timely and promises much for the future. The college students of today will be the leaders in the country's affairs of tomorrow. The action of the U. C. student body might well be emulated by other colleges and universities of the country.—Riverside Enterprise.

It always seems funny when the women of about our age refer to their crowd as the girls, but of course there's nothing funny about it when we refer to our crowd as the boys.—Ohio State Journal.

## YOUR HEALTH

By DR. CLIFFORD C. ROBINSON

**GLANDS**  
So much has been written concerning the use, abuse, and transplantation of glands and other parts and tissues of the body, that a word concerning this may be of interest.

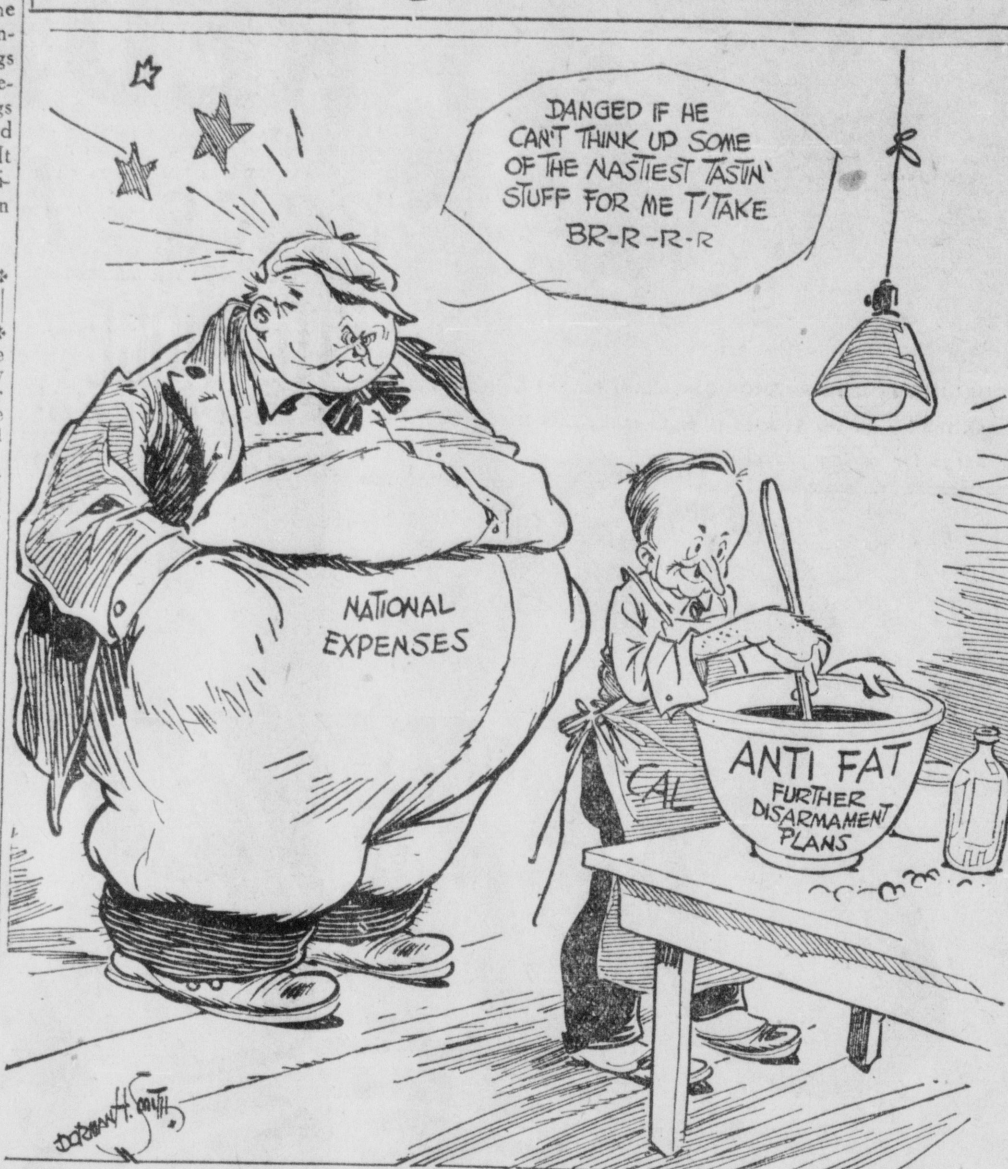

How much truth there is in the rejuvenation of life by these operations is doubtful. Furthermore, in spite of the statements and assurances of the enthusiasts, we must state the degree of efficiency in any glandular activity, where an attempt has been made to transplant glands, is in most cases very doubtful fulfillment.

When nature does not need an organ in the human body, it shrinks up or atrophies. It is put out of commission, so to speak. Any organs or glands that are transplanted from one person to another or from one part of the same person to another will meet the same fate.

The fact that there is a temporary stimulation from this foreign gland or tissue transplant, is practically nothing new. Many substances when placed in the body cause a certain reaction on glands and secretions of different parts. But within a comparatively short time the transplant is absorbed and only the psychological effect remains.

The cretinous child may be greatly benefited and even restored to mental and physical normalcy by feeding it the extract of thyroid glands. The adrenal glands also have been proven to have a decided influence on various organs and muscles. But do not let any fakers or flaring "ads" induce you to believe, for there is absolutely no available proof that any transplantation of glands will aid you in finding the fountain of youth.

## Preparing Another Dose

## The Current War

"For the moment there is a lull in wars fought with visible weapons," said Rudyard Kipling in a recent speech in London. "We are deep now in a world war that aims to destroy the spirit and will of man in his home and at his work."

"This is the essence of the new model of war, to create ill will, which is the mother of despair, and through that ill will to exploit the streak in each of us which leads us to stop our own work and talk about the duties of others."

It is much easier to feel patriotic about a war fought with visible weapons and to feel an exalted heroism in the face of physical danger. But it will be a wonderful day for this poor old world when the citizens of all nations, great and small, have learned to fight ill will with good will, to act righteously and kindly and to be as patriotic in the promotion of peace as they are in the promotion of military victories.

## Worth While Verse

## A LIFE ON THE OCEAN WAVE

A life on the ocean wave.

A home on the rolling deep;

Where the scatter'd water rave

And the winds their revels keep!

Like an eagle caged I pine

On this dull unchanging shore;

Oh, give me the flashing brine,

The spray and the tempest's roar!

Once more on the deck I stand,

Of my own swift-gliding craft;

Set sail! farewell to the land;

The gale follows fair abait;

We shoot through the sparkling foam,

Like an ocean-bird set free,

Like the ocean-bird, our home

We'll find far out on the sea.

The land is no longer in view.

The clouds have begun to frown;

But with a stout vessel and crew,

We'll say, let the storm come down!

And the song of our hearts shall be,

While the winds and the waters rave,

A home on the rolling sea!

A life on the ocean wave!

Epes Sargent.

## Time to Smile

## SOME MEAL

"Do you believe in dreams?"  
"Sure; last night I dreamt I was eatin' flannel cakes an' when I woke up this mornin' the blanket wuz gone."—Public Ledger.

**WILLS AND WILLS**  
They were discussing the things which help a man to obtain success in the world, when one young man said:  
"There's nothing like force of character. Now, there's Jinks. He's sure to make his way in the world. He has a will of his own, you know."

"But Brown has something better in his favor," argued his friend.  
"What's that?"  
"A will of his uncle's."

## Tom Sims Says

In New York a famous violinist's wife asks divorce, perhaps because she is tired playing second fiddle.

An auto is a great convenience, barring accidents. Baseball players are flocking to Hot Springs to take baths, so we should have clean baseball this year.

What the world needs is a doorbell that will tell who is ringing the darn thing.

You could almost truthfully say Babe Ruth is still the biggest man in baseball, since he weighs in at 236 this year.

The nice thing about living to a hundred is then the insurance agents quit bothering you.

The end of the world will not fail to arrive if you keep your foot on the gas and your eyes off the road.

We need a law so a man can be fined for cruelty to flivvers. An auto in hand is worth two in the ditch.

We like winter better than summer. You can't put a few lumps of ice on the fireplace and keep cool.

In East Nassau, N. Y., a man hit the postman with a hammer, but it isn't the postman's fault if he brings you bills.

## Little Benny's Note Book

by Lee Pope

Pop and ma was up in the setting room waiting for Mr. and Mrs. Hews, pop saying, Yee gods, I hope they go at a reasonable hour for once in their lives, I can stand certain people for just so long, and after that I start to wonder how I even stood them that long.

Now Willyum don't be ridiculuss Mr. and Mrs. Hews are lovely people and they know wen to go jest as well as anybody elts, ma sed.

Then wy don't they take advantage of the nollage? pop sed, Well if they don't make a move by 11 o'clock I think I'll stick a lighted newspaper under her chair, she's one of the most nervous, scarey wimmin I ever met and that awt to get her started, he sed.

O go on, anybody to heer you tawk would think you were dangerous, ma sed, and pop sed, So I am, how wew, meow, moow, baa, Wich jest thed the Hews came, and ma sed I could go out for about a hour, and I went out for about a hour, and wen I opened the frunt door I herd Mrs. Hews tawking upstairs and I had a idee, and I went in the setting room saying, G wizz I bot its going to pore like cats and dogs in a few minits, O boy I wouldn't be surprized if it would even thunder and lightning.

O my goodness Im going this second, O deer I wouldn't be cawt out in a storm for a million dollars, O mesty, this is dredfull, Mrs. Hews sed, And she jumped up and quick started to put her things on, saying, Ill never forget the last time I was cawt out in a storm, and Mr. Hews sed, Neither will I, I didnt heer the last of it for weeks, Ill get you home before it rains or break something in the attempt.

And they hurry up went home, and ma looked out the back window saying, Well of all things for goodness sakes, the stars are shining and it duzzent look any more like rain than I do, wy the moon is out like the sun.

There must of bin a cloud in frunt of it, I sed, and ma sed, O hush up, I must call the Hewses up as soon as they get home and tell them you must be color blind, and dont you dare ask me for any recess money tomorrow.

Wich I didnt, but pop gave me a dime and a wink without me even asking him.

## Phone Growth

Today's curiosity, tomorrow's necessity. Consider the telephone. New York's first phone directory, in 1879, was a small card containing 252 names. The telephone then was in its first stages. Just sort of thing "different"—a luxury. Forty-five years later more than 3000 times that number of names were listed, in a book of five pounds and 2000 pages.

The universality of the telephone has created an important industry in the production of the directories alone. In New York 100 men and women tell the year round on its preparation.

**One Year Ago Today**  
Publication of the so-called McLean telegrams by the senate committee investigating the oil scandal.

**Scripture**  
The earth is the Lord's, and the fulness thereof; the world, and they that dwell therein.

—Ps. 4:1.

## CROSSWORDING

Hal Cochran's DAILY POEM

MY KINGDOM for a single word that has eight letters in it. For then the task I've started will be through. I have a hunch I'll get the word I'm seeking, any minute. Ah, yes, for crosswords I have fallen, too.

Each night I board my street car and I take my pencil out. My thinking powers are quickly put to test. I never have discovered what the stunt is all about but I've fallen for it, hard, just like the rest.

A man who's sitting next me starts suggesting this and that. I argue that a word he gives is wrong. We fill out many spaces—then we don't know where we're at. Why do they make the longer words so long?

At last the kind conductor hollers, "Carbarns," very loud. We finish in the twink of an eye. The "Conny" is the fellow who should really feel quite proud, for "carbarns" was the word that we were shy.

## Icicles of Stone

Much has been said since the imprisonment of Floyd Collins in a Sand cave in Kentucky about stalactites and stalagmites, those icicles of limestone that hang from the roof and extend up from the floor of such caves. How these deposits came to exist, as well as how the caves themselves were excavated by nature, form an interesting page in the study of geology.

At one time, perhaps a million or more years ago, an ancient sea covered this district. Sedimentary strata of limestone were deposited on the floor of this sea. Often a layer of sandstone was formed, later, through some upheaval the bottom of the sea arose and became dry land. Then the formation of these caves began.

Limestone is but very little soluble in pure water, but water containing carbon dioxide will easily dissolve the mineral. Rain water, seeping down through the ground, absorbs carbon dioxide from decaying organic matter. Then it would percolate through the less soluble layers of sandstone without affecting them, but when it came to a layer of limestone it would dissolve some particles and carry them off. Thus, through many centuries, an entire stratum of limestone would be dissolved, leaving a cavern, often many feet in height. The ceilings and floors of these caves, as a rule, were strata of sandstone or other rock less soluble than limestone.

After the cavity in the earth was formed, and even before the exposure of Floyd Collins in a Sand cave in Kentucky about stalactites and stalagmites, those icicles of limestone that hang from the roof and extend up from the floor of such caves.
